DECISION GOES AGAINST HARRIMAN.

Circuit Court Holds That S. P. President Cannot Intervene in Northern Securities Case.

ST. PAUL, Minn., April 19.—In the United States Circuit Court today Judges Sanborn, Thayer, Vandeventer and Hook unanimously denied the application of E. H. Harriman and Winslow Pierce and the Oregon Short Line Railroad Company for leave to intervene in the case of the United States against the Northern Securities Company on the following grounds.

REASONS GIVEN.

First—The plan of the directors of the Northern Securities Company for the distribution of the stock of the Great Northern and Northern Pacific Railway Companies is not violative of the decree in the Northern Securities case.

Second—No one but the United States can successfully appeal to the court to enjoin the execution of that plan on the ground that it is in violation of the Sherman Anti-Trust Act and the United States expresses satisfaction with the present decree.

Third—The stock of the two railway companies is not in the custody of the court.

Fourth—An intervention is not necessary to enable the petitioners to protect any pecuniary interest or equity they have.

Judge Thayer delivered the opinion of the court.

FORMAL ENTRY.

The formal entry of the court is as follows:

"The application of Edward H. Harriman, Winslow S. Pierce and the Oregon Short Line Railroad Company for leave to intervene in this case was heard before this court on April 12th and 13th, 1904, and after due consideration it is hereby ordered that the said application be and the same is hereby denied. Signed:

"WALTER H. SANBORN.
"AMOS THAYER.
"WILLIS VANDEVENTER
"WILLIAM C. HOOK."

OPINION OF COURT.

The court in discussing the reasons for the decree, after reciting the grounds put forth by Harriman and Pierce for leave to intervene, says:

"Applications for leave to intervene in a case after the entry of a final decree are very unusual. They are never granted as a matter of course and owing to the tendency of such applications to occasion delay and prolong the the existing litigation, they ought not be granted unless it is necessary to do so to preserve some right which cannot otherwise be protected or to avoid some complication that is liable to arise.

"The principal ground, as it seems, on which the petitioners, Harriman and Pierce, base their application to intervene, is that it is necessary to the due enforcement of the decree that they should be admitted into the case as parties and be allowed to raise further issues and obtain further orders. It is undoubtedly true that a supplemental bill may be filed in a case after a final decree, for the purpose of fully executing it, when, after the decree is entered, some action has been taken or some unforeseen events occur which will prevent its enforcement unless some further orders or directions are given. But we fail to perceive that further orders are necessary in the case in hand to insure the due execution of the decree according to its terms. The decree was wholly prohibitory. It enjoins the doing of certain threatened acts and so long as these acts are not done it enforces itself and no further action looking to its enforcement is deemed essential.

PURPOSE OF INTERVENTION.

"It was said, in argument, that one purpose of the intervention is to have that clause of the decree which is now merely permissive, made mandatory. But this would be to modify the provisions of a decree which has now become final by affirmance and make an order which we expressly and on full consideration declined to make when the decree was entered. This we must decline to do."

In speaking of the contentions of Harriman and Pierce that the proposed plan of disposition of the stock of the Northern Pacific and Great Northern Railway Companies would result in leaving the control of the two railroads in the hands of persons who co-operated in forming the Securities Company, the Court says:

"The issues suggested are disputed and debatable questions of fact which the parties would be entitled to litigate with witnesses and evidence after leave to intervene had been granted and we decline to consider them or the affidavits or excerpts which presents them upon this motion.

WHERE TO INTERVENE.

"According to well-established rules the petitioners cannot intrude into this legislation merely to protect the public interests as long as the Government is present by its Attorney-General and expresses its disapproval of such intrusion. The petitioners can intervene only for their protection for their own individual interests and for that purpose only in the event that they can obtain adequate protection in no other way.

"The United States stands upon the decree as affirmed and submits that the Court is only concerned to see that it is faithfully observed by the defendants according to its terms."

The Court, in referring to the statement of the attorneys for Harriman that the stock of the Securities Company was in custody of the Court, says:

CUSTODY OF STOCK.

"It may be conceded that so long as property remains actually injudicial custody any one asserting a right thereto or interest therein may intervene, although the case in virtue of which judicial custody was acquired has passed to a final decree.

"This court, however, has never assumed the custody of the stock of the Northern Pacific and Great Northern Railway Companies, but has studiously refrained from doing so. It did not assume to direct what should be done with the stock in question when it enjoined the Securities Company from voting it and the railway companies from paying dividends thereon to the Securities Company. Nor was the bill which was filed by the Government one that placed the stock in judicial custody when it was filed. The intervention cannot be allowed, on the ground last stated.

DIVISION OF STOCK.

"Our conclusion is that the petitioners should not intervene and import into the case new issues to be tried. The due enforcement of the decree does not necessitate such action and if it so happens that the decree of this court in favor of the Government creates a situation which shall give rise to controversies between stockholders of the Securities Company as to how the holdings of the company in the two railway companies ought to be distributed or what should be done with such holdings, there are questions which can be settled among the stockholders themselves, who are more immediately concerned in these questions and according to those principles of law and equality which any court having general common law and equity powers is competent to enforce.

"Leave to intervene is denied."

BOUND BY UNIT RULE.

No Instructions for the Democrats From Pennsylvania.

Strong Sentiment Among the Delegates for Judge Parker.

HARRISBURG, Pa., April 19.—The final details of the Democratic State Convention were arranged at a conference of the leaders today.

Colonel James A. Guffy of Pittsburg, State Chairman James K. P. Hall of Ridgeway, Robert E. Wright of Allentown and ex-Governor Robert I. Patteson of Philadelphia were selected for delegates-at-large to the National Convention at St. Louis.

Robert Allen and Stanley Davis of Wilkesbarre were selected for Presidential electors-at-large.

NO INSTRUCTIONS.

It was decided that the sixty-eight National delegates should not be instructed, but that they should be bound by the unit rule.

The leaders concede that there is a strong sentiment among the State delegates in favor of Judge Parker of New York, and have made every effort to prevent instructions for the New York Presidential aspirant.

When the convention was called to order, Frank J. Fitzsimmons was chosen temporary chairman.

DEWALT'S SPEECH.

Arthur G. Dewalt was made permanent chairman. He said:

"Unless signs of the times are falsely read by those who are deemed to know something of public opinion, the time is ripe for the success of the great Democratic party. Its principles and its platform should be today what they have always been—a demand for honesty and sanity in the administration of public affairs and the cessation of spectacular government by a President whose every move is made toward his own succession in the White House. The prudence, safety and patriotism of a McKinley have given way to the schemes of a rough rider whose strenuous methods have more than once caused the nation to tremble, lest over night some act of his and through him, his party would cause all citizens untold misfortune.

"This great feeling of uncertainty, this widespread impression that the President is not a safe man, that he lacks poise and good judgment has caused the conservative and intelligent voter of the country to again turn his eyes to the Democrats for relief and safety."

THE PLATFORM.

The platform was adopted as follows:

After dwelling at length upon the "political wrong" perpetrated by the Republican party in Pennsylvania and an alleged attempt to discredit and dishonor our Supreme Court "by making the highest judgeship a mere perquisite of a corrupt machine and a place of exile or reward for those who hinder or help its selfish purposes" the platform continues:

It is obvious that since the accession of President Roosevelt to the Presidency the thoughtful sentiment of the country has become distrustful of his administration and fearful of the consequences of his extraordinary, erratic and autocratic assumption and exercise of power.

THE CONSERVATIVES.

"All that conservative men feared as a result of his accession to power has come to pass. Safe, dignified administration had given way to strenuous, spectacular partisanship. National and international problems of vast import have become the sport of personal ambition and have been fashioned and moulded as stepping stones to the Presidential succession.

"Today the country finds in Theodore Roosevelt a standing menace to constitutional government, to international peace and to business stability and prosperity. It turns to the Democratic organizations for safety and relief.

CONGRATULATIONS.

"The Democratic party is to be congratulated on the fact that we are now able to unite upon the cardinal tenets of our party faith and their application to the vital, pressing questions of today.

SKRYDLOFF IS THE HERO OF THE DAY.

THE TSAR GREETING A SENTRY.
On Easter Day the Tsar goes to mass. On leaving his apartment he kisses the first guard he meets, saying: "Christ is Risen."

Successor to Makaroff Receives An Ovation—Skirmishes Along the Yalu River.

ST. PETERSBURG, April 9.—Vice-Admiral Skrydloff arrived here today on his way to the Far East, where he will take command of the Russian fleet at Port Arthur. He was accorded an enthusiastic reception by the people who thronged the streets.

CHEERS FOR ADMIRAL.

The vast Zenamifskaia Square, opposite the Nicholas Railroad station, was black with people and the police guarding the platform were quite unable to cope with the crowds which broke through the cordon and rushed toward the train.

There were repeated outbreaks of enthusiastic cheers as the Admiral left the car and from the bare-headed throng, a peasant stepped out and presented Admiral Skrydloff with a copy of a picture entitled "The Holy Virgin of Joy to the Afflicted," which is reputed to have miraculous powers.

The peasant also presented the Admiral with consecrated bread, telling the Admiral that he saluted him in the name of the masses of the Russian people, all of whose hopes depended on him as the hero of the Russo-Turkish war.

HOPES OF EMPEROR.

"The people are convinced" added the spokesman, "that Admiral Skrydloff will justify the hopes of the Emperor and the fatherland and, like the Virgin whose pirtuce has just been given him, will bring joy, and that soon, to a people now afflicted."

The Admiral, who was visibly affected, took the picture, declaring that he accepted it as a happy presage, and adding that he would not part with the picture throughout the campaign and that he would put all his faith in God.

A representative of the middle classes presented the Admiral with a picture of St. Theodorius, the miracle worker of Czerniakoff.

LONG LIVE SKRYDLOFF.

The Admiral then entered a carriage and drove off, followed by deafening shouts of "Long live Skrydloff."

On arrival at his hotel a little girl presented the Admiral with a bouquet, hailing Skrydloff as the "supreme commander of my brothers, who are serving in the Far East."

"God help you," said the child, "in all your paths, and may Heaven grant that good fortune attend you always during the war, for the glory of our dear country."

The Admiral embraced the girl and the action brought out cheers.

CALLS ON GRAND DUKE.

Addressing the newspapermen, the Admiral declared he was deeply sensible of the kindness shown him. Subsequently, Skrydloff called on the Grand Duke Alexis, High Admiral, and Vice-Admiral Avellan, chief of the Admiralty.

Tomorrow he will be received in audience by the Emperor and Empress. Probably he will return to Sebastopol Saturday to formally hand over the Black Sea fleet to his successor.

SKIRMISHES ON THE YALU RIVER.

LIAO YANG, April 19.—A number of unimportant skirmishes are reported along the Yalu river.

Six Japanese soldiers were killed by Russian scouts on April 16.

Firing was heard on April 18, but the result of the engagement is unknown.

The outposts on the island of Yalu, between Anju and Wiju, have been engaged in continual skirmishes for several days. Some Japanese are reported to have been killed. At night when the Japanese return they disguise themselves in the straw cloaks of Koreans. They are making bags, with bark matting, which they fill with earth and use in building their defensive works.

FIRE AND EXPLOSION AT FRUITVALE.

Building Owned By J. H. W. Riley Destroyed—Loss Will Be About $10,000.

FRUITVALE, April 19.—The little settlement at the corner of the Old County road and Peralta street in this town was almost completely wiped out by a fire at 3 o'clock this morning.

START OF FIRE.

The fire started in the building owned by J. H. W. Riley, a stenographer in one of the Superior Courts in this county.

The building was a one story structure and was occupied by several small stores.

The building was completely destroyed as well as the stock of the several merchants.

FIGHTING FLAMES.

The residents of the district made heroic efforts to save the building, but before they could do any effective work, the fire had gained such headway that it could not be stopped until the property was destroyed.

THE LOSERS.

Hickok's grocery store was burned and nearly all the contents a total loss.

A butcher shop conducted by Crosby and Lechinsky was also destroyed.

A small barber shop adjoining also went up in smoke, as well as a confectionery store conducted by Mrs. Young.

PULLED BUILDING DOWN.

Adjoining the Riley building was a little old broken down shoemaker shop, and adjoining this was some private residences.

SAVED THE HOMES.

In order to save the homes the firemen hitched a rope around the shoemaker's building, turned it over and dragged it into the street.

This had the effect of saving the homes of several people.

THE LOSS.

The loss will be about $10,000, partially covered by insurance.

NARROW ESCAPES.

The fire is supposed to have started in the grocery store. During the progress of the fire the oil in the grocery store became ignited and caused a heavy explosion. Several people had a narrow escape.

WILL NOT CARRY STAY.

NORTHERN SECURITIES CASE DECISION WILL THROW OUT APPLICATION.

NEW YORK, April 19.—One of the counsel for the Northern Securities Company says the decision at St. Paul will merely throw the application for an injunction out of court, and any appeal would not carry with it a stay of the proceedings, because if it did so much a stay would practically grant the injunction. The same is true, he declared, in the decision against the Continental Securities Company, rendered at Jersey City yesterday, and if either case is appealed, the appeal will not prevent the holding of the meeting of the Northern Securities Company on Thursday, April 21st.

Northern Securities stock advanced a point and a half on the curb on the news that the petition had been denied. Some 3500 shares changed hands in the first hour. In the general market Union Pacific declined to a fraction under last night's close, but recovered and then again declined.

WIND AND RAIN IN SAN DIEGO.

SAN DIEGO, April 19.—The wind today continues steady from the south while the sky is overcast. Shortly before 11 o'clock a light rain began to fall and the outlook indicates more than showers. Practically nothing was added to the season's rainfall, by the showers of yesterday and last night.

HEAVY RAIN AT SAN JOSE.

SAN JOSE, April 19.—The rainfall for the storm which began here yesterday morning is 1:23 inches up to noon today and fully twice that quantity in the foothill sections of the valley. It is still showery with a south wind and indications of more rain.

VICE CHANCELLOR APPOINTS RECEIVER.

TRENTON, N. J., April 19.—Vice Chancellor Pitney today appointed Charles C. Black of Jersey City receiver for the Globe Securities Company of New York. The company dealt in bonds and securities. Henry L. Swarde, the complainant, places the company's liabilities at $968,800 and assets at $512,000.

NO BASEBALL TODAY.

SAN FRANCISCO, April 19.—There was no baseball today on account of wet grounds.

THEY WILL MEET HARRIMAN.

STUBBS AND M'CORMICK ARE ON THEIR WAY SOUTH.

PORTLAND, Ore., April 19.—Traffic Manager Stubbs, of the Harriman system of railroads and E. O. McCormick, assistant traffic director of the Harriman lines left this city today for Los Angeles in response to a telegram from Mr. Harriman, who is making a tour of the Southern Pacific, proceeding westward from New Orleans, accompanied by Julius Kruttschnitt, transportation director.

They will make a brief stop in San Francisco and expect to reach Los Angeles Thursday night. Messrs. Stubbs and McCormick have been in Portland for several days conferring with the officials of the Harriman lines, in this city. It is reported that several changes in the operating departments of the roads are in contemplation.

VLADIVOSTOK IS IN BAD SHAPE.

ST. PETERSBURG, April 19.—The population of Vladivostok is in want of the most necessary kind of provisions and in consequence of the flooded rivers, which interrupt communication, it is impossible to furnish them supplies. There is also a scarcity of money. Many inhabitants, particularly the women and children, are leaving the city, abandoning their property, which they are unable to sell.

Half of the houses in Vladivostok are empty and the civilian population is already reduced to 5000.

TRANSPORTS NOT YET REPORTED.

ST. PETERSBURG, April 19, 4:30 p. m.—No confirmation has been received here up to this hour of the reported arrival of a big fleet of Japanese transports in the Gulf of Che Li. Reports differ widely as to the destination of the fleet.

ALLEGED FORGER RELEASED ON BOND.

LOS ANGELES, April 19.—E. W. Masterson, who recently was extradited from Germany on a charge of forgery in connection with frauds alleged to have been perpetrated on the Continental Building and Loan Association of San Francisco has been released on $5000 bond pending trial.

OAKLAND RAINFALL.

The rainfall for the twenty-four hours ending at 1 p. m., today was .69 of an inch, making 29.90 inches for the season, as compared with 24.35 inches at the corresponding date last year.

GREAT STREET CAR STRIKE CANNOT BE AVOIDED.

SAN FRANCISCO, April 19.—The possibility of a street car strike becomes more imminent as the first of May approaches. There seems little probability that the United Railroads officials will reconsider their stated intention of managing the road to suit themselves, and the men, on the other hand, decline to rescind the demand that they be permitted to dictate in regard to the students, so an adjustment, while it is eagerly hoped for by the public, does not seem to be near.

On the first of May the compact between the company and the men is ended, and on that date the patient public will probably walk the city's streets pending the settlement of a strike.

At General Manager Chapman's office it was stated this morning that nothing further has developed in the situation, and that the United Railroads had therefore no further news to give out.

President Mahon of the Carmen's Union stated today that the meeting yesterday at the United Railroads offices was disappointing. He sees trouble ahead if both sides remain obdurate. He reported that matters instead of improving are not looking so bright for an amicable settlement, and while other meetings are to be held, he believes little will be accomplished toward a settlement. Eleven more days and the compact between the men and the company will have expired, and it begins to look as if nothing short of an open rupture may be expected.

The men state that all resources at the command of the executive officers of the union will be exhausted before a strike is ordered. Mr. Mahon, in talking of the seriousness of the situation, said: "Affairs look critical. We met in conference yesterday, but the deliberations resulted only in talk. So far absolutely nothing has been accomplished. At the conference today we will continue to make every effort to obtain an amicable settlement of the differences."

Mr. Mahon has pressing engagements in the East, but the situation in this city is of such a nature that he will not leave San Francisco until it is relieved. The carmen's reply to the printed statement of the United Railroads has been prepared and 75,000 copies of the same will be distributed throughout the city.

ANNA HELD CAPTURES THE MACDONOUGH AUDIENCE.

Take all of the light shows that have visited Oakland this season, pick out the sweetest, catchiest songs, draw out the best threads of the stories, select the best dances, discard all ordinary costumes, select the chaps with the best looks and voices and only such chorus girls who are really beautiful and can also sing, then spend perhaps $75,000 for stage things and $25,000 more for costumes.

Such a production might approach the grandeur of M'lle Napoleon" in which Anna Held made her first appearance at the Macdonough Theatre last night.

To whom did it not appeal? It is deeply artful for it leaves on each mind an impression after its own kind.

There is a weird beauty about the wood scene in the second act. The costumes of the wood nymphs are exquisite and the dark changing lights make a wonderful effect. The air of the song, "Nymphs and Satyr" fits well with the mythological fantasy.

The climax of splendor is reached in the bal masque scene, Grand Opera House in Paris, in the third act. The auditorium and boxes of the theatre are shown. Vaudeville numbers are given which cause the real audience to demand repeated encores.

The gowns—well, the men are silent and most of the women can only say "Oh, oh." No use to describe them. They are undoubtedly the latest fashion plate. While they are being shown Miss Held sings, "The a la Mode" girls.

This delightful ensemble of beauty will be repeated tonight for the last time.

Among those noticed in the audience were: Mr. and Mrs. Charles Parcells, Mr. and Mrs. J. H. Macdonald, Judge and Mrs. Samuels, Mrs. George Baldwin, Mrs. E. S. Denison, Miss Lou Denison, Miss Sloper, Asa V. Mendenhall, Miss Florence Hatch, Mr. and Mrs. C. R. Folger, Mr. and Mrs. Frederick Stratton, Captain and Mrs. W. B. MRS. FISKE FRIDAY.

Fuller, the famous writer of the seventh century, describes Jewish dress in a book on Palestine written in 1650. From the most primitive garment of skins and hair cloths the arts of dress developed among the Jews to the use of fine linen, silks, cloth of scarlet and wrought gold. The ancient Jews were no affectors of various fashions, but kept the forms of their garments unchanged for ages. "Indeed," as Fuller says, "their clothes being for the most part loose vestments, not exactly fitting to their bodies, but only cast over, wrapped about, or girded unto them, the less curiosity was required in their making. And because we meet not with the trade of a tailor mentioned all through the Scriptures, it seems anciently no regular occupation among the Jews, being probable that the men or their wives made their own clothes. Thus the state and gallantry of the Jews consisted not in changeable fashions, but in their various changes, Oriental colors, costly matter and curious embroideries. The dress of the Jewish women was splendid with gold and embroidery. The Queen of Judea was arrayed in a garment of wrought gold. Thus," observes Fuller, "such gallantry was fashionable amongst the Jews long before any thereof was used in the western parts, or Rome itself; indeed, a mantle of cloth of gold we find mentioned by Pliny as a great novelty though such a one had been worn by the Jewish queens a thousand years before." In "Mary of Magdala" the costumes worn by Mrs. Fiske are marvels in fabrics and they are also symbolical of character, while many of the garments worn even by the figurants richly illustrate the attire of the time of the drama. Mrs. Fiske will appear at the Macdonough Theatre on Friday evening, April 22 and Saturday matinee, April 23. At the matinee Hedda Gabler will be the bill. There will be no performance Saturday evening.

MRS. H. W. KAUFMAN PASSES AWAY.

Mrs. Clise Kaufman, wife of Henry W. E. Kaufman, secretary to the German consul at San Francisco, died last night at the German Hospital in San Francisco. The deceased was a native of Germany, but came with her husband to this country at the time of his appointment.

She had resided in Alameda, where both she and her husband had a wide circle of friends. She was the mother of Conrad and Auguste Kaufmann.

The funeral will be held on Thursday from the parlors of a local undertaking establishment. The remains will be interred in Mountain View Cemetery.

One of the most logical and forceful speakers in the national woman's suffrage movement is Miss Gail Laughlin of New York City, who will give an address on Thursday evening, April 21, in Hamilton Hall. Her subject will be "The Economic Basis of Woman Suffrage."

Miss Laughlin is a distinguished graduate of Wellesley College and the law department of Cornell University. She has lectured in many States of the Union and the public debates in which she has engaged have attracted widespread attention. Miss Laughlin is a slender young woman with a strong intellectual face. She has been very successful in her suffrage work in California and is sure to give an interesting lecture on Thursday evening. The public is cordially invited.

FOOTHILLS ROAD REPORT.

AMENDED LIST OF OWNERS ON LINE OF PROPOSED DRIVEWAY.

This morning at an adjourned meeting of the Board of Supervisors a supplemental report was made on the foothill road to Haywards by County Surveyor Prather and Messrs. I. B. Parson and A. B. Carey, the viewers.

The report was made for the purpose of including in the proceedings landowners who have acquired property along the proposed road since the viewers made their original report, as absolute ownership is essential to be shown in the event of condemnation proceedings being ordered.

The property-owners who were included in the report filed today are Samuel Kellogg, the Oakland Realty and Investment Company, the Evergreen Cemetery Association, Mrs. E. Simmons and Catherine R. DeLancey.

The new report also included the correction of misspelled names in the original one.

Consideration for both reports was set for Monday next at 10 o'clock a. m.

FIRST VICTORY FOR HEIRS.

JUDGE GREENE SUSTAINS DEMURRER TO THE CONTEST OVER NIGRO WILL.

The attorneys for Mrs. Ellen and Madeline Nigro scored the first victory in the contest begun over the will of the late Fabrizio Nigro, who left property to the value of about $50,000, this morning, when Judge Greene sustained their demurrer to the action begun by Attorney Charles F. Hanlon on behalf of Francisco and Domenico Alberti, who claim the right, by a former will, of handling the affairs of the estate until the indebtedness is paid. When Nigro erected the Poodle Dog restaurant building at the corner of Eddy and Mason streets in San Francisco he mortgaged the property to the Hibernia Savings Bank for $50,000. Provision for the paying off of this debt was made by Nigro in a will, which he afterwards revoked. The subsequent will, however, it is claimed by the Albertis, was made when Nigro was incompetent to make a will.

The fight, however, is not as to the competence of Nigro at the time he made his will. In the demurrer which came up for consideration today Attorneys Sullivan and Sullivan, Lloyd and Wood and Allen and Walsh, representing the widow and her daughter, made the following contentions:

1st. That the Albertis are not interested in the estate and under the law are thereby barred from interference.

2d. That the allegation has been made that the first will of Nigro was fradulently destroyed, but that it has not been shown in what the fraud consisted.

According to the statement of the attorneys, Attorney Hanlon himself was summoned to the Nigro house and himself destroyed the will he now complains was destroyed through fraud. Judge Greene held that the points made were well taken and sustained the demurrer, but gave Hanlon ten days in which to amend his complaint.

In these two objections, however, the attorneys believe they have an effectual bar to any attempt to set aside the will of Nigro. In speaking of the matter Attorney Philip Walsh said:

"The only difference between the two wills is that in one, the two Albertis have the management of the estate until the debts are paid. In the second they are not mentioned. In either case the property eventually goes to the widow and daughter. We do not think the contestants can avoid either horn of the dilemma. As attorney for Nigro, Hanlon witnessed the will which he claims was made while Nigro was incompetent. While the Albertis can in no way claim an interest in the estate, they do not receive a cent even under the will that they claim is the right one and their only interest can be a secondary one. If their will is sustained, they have the handling of the estate and thus would be entitled to fees."

ENGLAND'S TRADE RECEDING.

AUSTEN CHAMBERLAIN SPEAKS REGARDING THE INDUSTRIES OF GREAT BRITAIN.

LONDON, April 19.—The widespread interest in the presentation of the budget today was evidenced by the crowded state of the House of Commons. Long before the Chancellor of the Exchequer, Austen Chamberlain, rose to make his statement, every part of the house was filled. Joseph Chamberlain was present to hear his son, as was Mrs. Chamberlain.

The former Colonial Secretary, whose first public appearance it was since his return from abroad, met with a great reception from the occupants of the ministerial benches, while the Nationalists invited him to sing "Rule Britannia" and greeted him with shouts of "pig tail."

Austen Chamberlain opened his speech by commenting on the difficulties of the position, the great wave of prosperity which Great Britain had enjoyed so long, having apparently spent its force and given place to a less prosperous cycle. The industries of Great Britain, especially the cotton industry, were depressed and foreign competition was keener than ever. The markets in which Great Britain had heretofore been supreme were increasingly threatened. The commercial depression in the United Kingdom was aggravated by the conditions in South Africa. The revenue for 1903-04 was $13,620,000 below the estimate, while the expenditures exceeded the estimate by $15,035,000. The repeal of the duty on wheat had become more costly than anticipated, without affording the consumer the relief expected. The net total deficiency for the fiscal year was $27,075,000.

PLEADS NOT GUILTY.

Drudgery

And Worry Sap Woman's Nervous Vitality.

There is nothing more nerve wrecking than household duties and the care of children. The drudgery, worry and petty annoyance of the day, and broken rest at night soon exhausts her vitality and she becomes nervous, irritable and restless. If allowed to continue, it ends in Sick, Nervous Headaches, Stomach, Liver and Kidney troubles, and those terrible Periodical Bearing-down pains, which come from nervous exhaustion.

Dr. Miles' Restorative Nervine is a never-failing remedy for such cases. It builds up and soothes the nerves, and brings the sweet, restful sleep, so much needed.

No other medicine is so pleasant or so curative in every case of female weakness, nervousness or general worn-out condition.

"I had been sick several years with indigestion and nervous prostration, which kept me almost constantly under a physician's care, and while I had been treated by four doctors, I received only temporary relief. I was very weak and helpless, and unable to attend to my household duties. After reading about Dr. Miles' Nervine, I concluded to give it a trial. The first few doses brought restful sleep at night, and an appetite for food. Continuing the treatment, I rapidly improved, and now I am well and able to do all my work."

A Matter of Health

Modern scientific medicine recognizes (1) that disease is most frequently transmitted by dust and dirt, (2) that the ideal method of getting rid of disease germs is by removing them (asepsis) rather than trying to kill them (antisepsis). Fumigations attempt to destroy; the compressed air removes. The simplicity and efficiency of the method will recommend it not only for household purposes, but also where cleaning is necessary as a sanitary measure.

CARNEGIE'S HERO FUND.

PENSIONS FOR THOSE WHO DO NOBLE ACTS IN EVERY DAY LIFE.

NEW YORK, April 19.—Andrew Carnegie, who is sojourning here with his family is much gratified over the reception given by the press and public to his $5,000,000 fund for American heroes, says an American dispatch from Aix les Bains, France.

"The people of Newfoundland, Canada and the United States, are all Americans," he said, "and they should all act together as brothers. My hero fund includes all three countries. Newfoundlanders were omitted at first through an oversight. That, however, has been remedied, for I have cabled ordering the plucky little State to be included.

"Were I a newspaperman I would consecrate my pen to advocating the fraternal union of Canadians, Newfoundlanders and the people of the United States, who are all Americans.

"New forms of heroism have been evolved with the growth of civilization. Heroes in the past have been those who killed or maimed their fellow men, while modern forms of heroism were not then recognized.

"The heroes of barbarism all had red hands. We want heroes of civilization—those who save and do not kill; those who help and do not hinder. I hope the fund will bring out the best there is in our civilization. The fund is confined to heroes of peaceful vocations. The Government will take care of those injured and the dependents of those killed in the army and navy.

"Although pensions promote heroism, constructive and not destructive heroism is found in nurses who volunteer in epidemics, in mill hands, railroaders, firemen and sailors. Our age is crowded with noble deeds.

"Those heartily honored tend to counteract the materialistic tendencies of the age and give direction and inspiration in the way of heroic life. Widows, orphans and all those who give their lives partly or wholly for others should be provided for."

Asked about the heroism of the men who sacrificed their lives to save the battleship Missouri, recently, at Pensacola, Mr. Carnegie replied:

"Their heroism was magnificent, but it does not come within the scope of the hero fund, because the Government provides for the dependents of these men. Nevertheless, should a fund be opened for the Missouri heroes, I would be glad to subscribe a thousand dollars.

"Nobody suggested the hero fund to me. I had long thought of it. It is now my favorite philanthropy, probably because of its nature and because it is my latest child. I am receiving many telegrams of congratulation from America and am greatly encouraged that the great press of America should approve the gift and help to develop the spirit underlying it."

WOULD MAKE A NEW PARTY.

JUDGE CROSSCUP SPEAKS ABOUT GOVERNMENT OF LARGE CORPORATIONS.

CHICAGO, April 19.—The supremacy of some political party with a settled policy regarding the great corporations of the country" has been declared by Judge Peter S. Grosscup to be the means of escape from "an impending transformation in the ideals lying at the foundation of a republican form of government."

Speaking before the Chicago Congregational Club at its monthly dinner at the Auditorium on "The Church, the State and the Individual," the jurist declared himself a friend of the "honestly managed corporation," while deploring that the individualism of thirty years ago has been lost in vast mergers of capital.

The platform of his proposed new political party was outlined by the Judge as follows:

Recognition of the fact that the corporation is "here to stay," as I cannot be driven out by a "mad dog" policy.

A demand that the capitalization of a corporation shall represent its assets.

Insistence that the great seal of a State shall not be employed to sanction the existence of institutions "born bankrupt."

Restrictions on the organization of enterprises "of Eiffel Tower construction," forcing "ground floor privileges" to a few stockholders.

The subjection of all corporations to Government supervision.

"The dishonest corporation as an institution of this country will never be broken up until some such policy has been adopted by a courageous, high-minded political party, and no such party will ever take it up until it is assured of favorable public sentiment," said Judge Grosscup.

The postmaster at Nails, Ind., has resigned because he found it next to impossible to live within his salary, which is $19 a year. Which all goes to prove that the cost of living is increasing.—New York Tribune.

HON. ALTON B. PARKER.

CAREER OF THE PRESIDENTIAL CHOICE OF THE EASTERN DEMOCRATS.

A few weeks ago, except to those who keep in close touch with everything political, Judge Alton B. Parker, chief justice of the New York Court of Appeals, was almost as unknown as Bryan was before he made his "Cross of Gold" speech. Now he is rapidly acquiring national fame, although not through any utterances of his own. He is today the strongest hope of the Democratic party, and the man who, from present indications will be nominated for President at the St. Louis convention in July. His own silence as to his views and ambitions piques curiosity and interest, and makes the public, that recently knew him not, eager to hear what manner of man he is.

Judge Parker's comparative obscurity is not due to lack of talent or ability, but to his idea of the dignity of his position. He is rare in holding that a wearer of the ermine should not discuss politics and he consistently carries out this belief. Not a word can be got out of him regarding his candidacy. Work for him is going on, but without his support or help. He is chief justice of the Court of Appeals of the State of New York, and is going calmly on with his duties, working hard as he has always done. He is entirely in the hands of his friends.

HIS CAREER.

Judge Parker's career has been neither sensational nor meteoric. He was born on a farm near Cortland, N. Y., on May 14, 1852, and consequently is nearly fifty-two years of age. He came from excellent, sturdy stock on both sides. His boyhood life was that of tens of thousands of farmer boys. When he was sixteen years of age, he became a school teacher. His pupils were large and rough, but young Parker established discipline by knocking down the bully of the school. He taught for four years, then entered a law firm at Kingston. He attended the Albany Law School, was admitted to the bar and opened an office at Kingston, with a partner named Kenyon. He practiced his profession with success and, in 1877, was elected surrogate for Ulster County, serving two terms. Then Judge Schoonmaker, in whose office Parker had studied was "thrown down" by his party. Parker went into the campaign and restored the judge to popular favor. In 1885, he became chairman of the Democratic State Executive Committee, managing the campaign in which David B. Hill was elected Governor of New York. Hill appointed him judge on the State Supreme court bench when Justice Westbrook died. When his term expired he was unanimously nominated for the same office by the Democrats, and the Republicans paid him the compliment of not nominating an opponent. He was only thirty-three when he took his seat, and he served until 1897. Then he was elected to his present position by a plurality of about sixty thousand votes. He has been on the bench for nineteen years.

OFFERED POSITIONS.

Such is the career of Judge Alton B. Parker. He has been offered other positions, but has refused them. In 1888 and 1885, he declined the nomination for the lieutenant-governorship and in 1891, was offered the candidacy for Governor, but would not take it. He could have been candidate for United States Senator after Hill's election had he so chosen. In 1893, President Cleveland, who was a warm personal friend of Judge Parker, telegraphed him to come to Washington and offered him the position of assistant postmaster-general, which he also declined. With all this, though, he has taken the strongest interest in politics, keeping close track of every move. He is a strong partisan having voted for Bryan in 1896 and 1900 although not a believer in free silver. He is said to be a tariff-reformer, but not a free-trader. His views on the trusts, Philippines, Panama, etc., are not known.

STRIKING MAN.

The personality behind this career is an interesting one. Judge Parker is a striking man in many ways. He is nearly six feet in height and weighs two hundred pounds. He is as straight as an arrow, and strong as an athlete. All his life he has taken good care of himself, and, in the prime of his years, is also in the prime of his manhood. It is said that when he is out riding he throws his arms about in the excess of his vigor. His face is strong, full of color, his eyes are large and brown. His hair and mustache are tawny, almost red. His jaws are formidable, his chin round, firm and strong. His nose is acquiline, his cheek bones high, his forehead broad, lofty, full, smooth, and unwrinkled. His gaze is straightforward and penetrating and he carries himself with dignity; although, off the bench and at his home, he is a charming conversationalist. He is a man of exceptional courtesy. One of the remarkable facts about Judge Parker, considering how little attention the majority of great men pay to external appearances, is that he is a careful and fashionable dresser, owning a riding suit for his morning canter, a business suit for his daily duties and invariably, whether at Albany or on his farm, putting on evening dress for dinner.

COUNTRY LIFE.

Judge Parker's chief delight is in his country life. He has three farms—one of one hundred and fifty acres at Cortland, another of the same area at Accord, and a third of ninety acres at Esopus. It is at the latter that he makes his home at each week end and during his summer vacation. Here he leads a regular farmer's life when his judicial work will permit. He arises early, takes a plunge in the Hudson if the weather is warm enough, and a horseback ride regardless of weather. All the time he can spare he puts in with his cattle and horses, of which he is very proud. His house is a comfortable wooden structure, part of which dates from Colonial times. It is on a slope, commanding an extensive view of the Hudson. It has a spacious dining-room, a well-stocked library, and is comfortable, cheery and hospitable looking. In the house, as all over the farm, thrift and orderliness mark everything. His wife and mother, his daughter, his son-in-law (Rev. Charles Mercer Hall, rector of the Episcopal Church at Kingston), and his two grandchildren share his home. He delights in hospitality and is happy when at the head of his long mahogany table with a goodly company gathered. He lives simply, and rarely drinks although wine is sometimes served when he has guests. He smokes very little, then only after dinner. His life at Albany is as simple and unassuming as on the farm.

The amount of work that Judge Parker can do is prodigious. His methodical habits and perfect health make him capable of great tasks. Nothing is slighted. He goes over every decision carefully and conscientiously. When he makes a decision he does it without wasted words—and it stands. His associates say that he does everything in his power to save them unnecessary work and he is the only member of the Court of Appeals who is always present when the court is open.

HIS RELIGION.

Although not ostentatiously religious, Judge Parker attends service in his son-in-law's church at Kingston, nine miles from Esopus every Sunday. His servants are Roman Catholics and he has them driven to their own church regularly. His tastes in reading run to the best magazines, and Dickens, Thackeray and Scott are his favorite novelists. Jefferson is his best-liked political writer and he especially delights in any good work on farming and cattle raising. He likes simple music and sometimes sings. His daughter is an accomplished pianist. His instincts are neighborly, and he takes a keen and active interest in all local affairs. He is a vestryman in the Kingston church and helps along with its sewing and cooking and physical culture classes, its boys' gymnasium, and other adjuncts. He is a contributor to the orphan asylum and one of the managers of the Kingston County Hospital. He is freight agent for a steamship company, so that the private dock on his farm may be used for the convenience of the community.

Judge Parker's private fortune is estimated at about thirty thousand dollars. He has never speculated his worldly goods consisting of his farms, the profits from them and what he saves of his salary. He is said to have no ambition for wealth.—New York correspondent of the Argonaut.

WILL CHOOSE WORLD'S FAIR ATHLETIC TEAM.

Interesting Tryouts Will Be Held on the State University Cinder Track Next Saturday Afternoon.

BERKELEY, April 19.—Next Saturday on the University cinder path the second try-out to select a team of amateur athletes to be sent to the World's Fair at St. Louis to participate in the eleven days' track and field events, will be held. Athletes from nearly every high school and college in California, as well as many from Nevada, and also many from the various amateur athletic clubs throughout the State, will gather on the college campus next Saturday. Of course it is expected that most of the places will go to the men from the two great rival universities of California, but it is said that Nevada has one or two surprises as well as an athletic club across the bay.

The try-out Saturday is expected to attract attention throughout all parts of the State and a large crowd is expected to attend the meet. The oval promises to be in perfect condition and everything points forward to several coast records being broken, if not some national ones. Hyde from Stanford is expected to do something surprising in the shot put, while Hackley of California is looked to establish a new record in the two mile run, even better than the one last Saturday. Dole of Stanford will try hard to break the pole vault record. A keen rivalry is developing between the two colleges as to which shall send the largest number of delegates to the fair and the meet will be in many respects a repetition of the intercollegiate field day of last Saturday.

The contests are open only to amateurs, and by amateurs is meant the strictest definition of the word. An amateur athlete is (1) a person who has not received or competed for compensation or reward, in any form, for the display, exercise or example of his skill in or knowledge of any athletic organization; (2) a person who has not entered any competition under a name other than his own, or from a club of which he was not at that time a member in good standing; (3) a person who has not knowingly entered any competition open to any professional for any prize or token; (4) a person who has not issued or allowed to be issued in his behalf any challenge to compete against any professional or for money; (5) a person who has not pawned, bartered or sold any prize won in athletic competition; (6) a person who is a registered amateur athlete. If a man fail in any one of these six counts he may be disqualified from competing as an amateur. There is no such thing as a semi-professional. An individual is either an amateur or he is not, according to the interpretation of the amateur athletic law.

The famous Olympian games, now held every four years in perpetuation of the noted contests of a similar nature in ancient Greece, will be the greatest feature of the 140 days devoted to amateur athletic sports at the St. Louis Exposition. These Olympic games will occur August 29th, 30th and 31st, and September 1st, 2d and 3d. The first revival of the Olympian games was held in Athens in 1896, and even then an American won the traditional Greek event of throwing the discus. At the second series, held at the Paris Fair in 1900, American athletes won nine tenths of the events, although all of them were contested by various European nations.

Now America is to have its first series of these quadriennial Olympian games open to the athletes of the world, and there is a good prospect of Americans sweeping the field in practical competition with all the rest of the world combined. At the same time every effort is being put forth to make these the greatest Olympian games ever held.

The World's Fair gold medal will be given to the winner of each of the several hundred different events embraced in the general program of contests, the silver medals to the second-place man, and the bronze medal to the one who gets third place. In addition, there will be special cups and trophies for individual and for team championships.

The fair will open April 30th and close December 1st. It will remain closed Sundays. Into that week-day period of seven months will be crowded a surprising list of sporting contests. Including almost everything of popular interest to the amateur.

There will be twelve consecutive days of roque, six consecutive days of Olympic games, six days of bicycling, six of college baseball, six of inter-scholastic baseball, six of tennis, six of golf, six of cricket, six of intercollegiate football, six of interscholastic football, six of Young Men's Christian Association athletics, six of military athletic carnival, five of interscholastic baseball, five of association football, four of Irish sports, three of lacrosse, three of bowling on the green, three of archery, three of fencing, three of public elementary and high school championships, two of basket-ball championships, two of college basket-ball, two of interscholastic basket-ball, two of swimming and water polo, two of rowing races, two of interscholastic championships, two of amateur wrestling championships, two of relay racing for clubs, colleges and schools, and two of turners' international and team contests. In addition to all these kinds of sports, each given from two to twelve consecutive days, there will be eleven other separate days devoted to track and field contests, two separate days devoted to turners' mass exhibitions, two separate days devoted to cross-country championships and one other day devoted to college football.

ANOTHER HORSE AT LONG ODDS.

EBONY CAPTURES LAST RACE CARRYING M'BRIDE AT FORTY TO ONE.

It was a day of showers from above and surprises here below yesterday at the race track at Emeryville. The rains of the morning did not affect the track, but many who had planned to attend were kept away by the threatening weather. There was, however, a fair sized crowd.

Maud Sherwood in the first race for four furlongs was the favorite, closing at 7 to 5 in the betting and finished sixth at the wire. Puss in Boots had a lot of support in a quiet way, but was not in the money. Lady Rowena was played by a coterie of wise ones and receded from 50 to 20 at the closing and did about as the price called for and landed number fourteen in a field of the same number. Suburban Queen took the prize and made the wire after receiving a good drive. Her closing price was 8 to 1 and the mare was unexpected. Dora I. another long shot at 12 to 1, fought it out with Potentia, at 10 to 1, for the place and finished in the order named. Nome was fourth. Puss in Boots was not ready and came along fifth. The time made was 1:02.

Oscar Tolle, Royal White and Pure Dale had the shortest prices in the second race for the futurity course, the first named favorite with the other two next choices as named. Rosebud had a lot of support from the small-bettors and closed at 12 to 1. Benlash was the largest price horse in the race and closed at 25 to 1, not figured on. Oscar Tolle did not look like a winner up the back stretch, though he was in a good position. At the turn he pulled ahead and showed that Holbrook knew what he was doing, only waiting for an opening. Coming home the horse took the lead and won. Benlash was second and Judge Voorhies, at 8 to 1, third. Royal White was not strong enough to stand the pace set and was fourth. The time was 1:11.

Bob Ragon, J. T. Sheehan up, formed a strong combination, and as ridden in the third race of four furlongs showed that his price as favorite, 13 to 5, was well considered. Pirella was picked by many to take the race without any trouble and closed at 4 to 1. The filly was ridden a good race, but finished just behind Bill Short, who was ridden into second place by Knapp. Escobosa had hard luck and was just out of the money. Gloomy Gus fifth, Howard Vance sixth, Glacoma seventh and David Boland last. Dixelle and Saccharate did not run. The time was :50.

It looked like Ripper in the fourth race of one mile and a sixteenth, and the horse should have done better. Virgie d'Or was the favorite and closed at 6 to 2, and with Glenrice and Isabellita was the choice of the talent. These three made good and for once the three best choices got into the money with a reversal of the "liking." Isabellita was easily the best horse and proved it by taking the wire first. Virgie d'Or did not begin to close until late in the game, but outran Glenrice for second and the latter came third. Louwelsea had some support on account of her long price of 30 to 1. The rest of the field was all long in price and long in arriving. The time was 1:50.

The fifth race was over the futurity course and the favorite won all out at 6 to 5. Titus hung on bravely, but was not game enough to stand the drive. Yellowstone closed stoutly. Shell Mount was not up to his usual form. The time was 1:11.

A runaway match was the feature of the last race and Ebony, a long priced horse, took the race, leaving the field behind in the last furlong, at 40 to 1. The colt showed remarkable speed and vast improvement over his recent races. Ora Viva did well and closed as well as she could. Flaneur was even money to show and realized. North West, the favorite, ran last. The time, distance one mile and fifty yards, was made in 1:45.

UNIVERSITY GIRLS PLAY BASKETBALL AT MILLS COLLEGE.

CO-ED BASKETBALL TEAM OF STATE UNIVERSITY—Clark, Berkeley, Photo.

BERKELEY, April 19.—In a keenly contested basketball game the teams of the University of California and Mills' College are contesting for supremacy on the court of the latter this afternoon. There is a good sized sprinkling of Berkeley girls among the large gathering of Mills' girls and partisanship is running high.

The slogans of the fair devotees of the game are adding greatly to the spirit of the occasion.

The members of the Mills' team are: Goals—Misses Gertrude Holmes, Ellen Smith and Ethel Whitney; centers, Miss Ethelwyn Gardner (captain), Miss Irene Darrance and Miss Bonbell Collins; forwards, Miss Emma Costa, Genevieve Kimball and Marion Upson.

The members of the co-ed basketball squad are: Goals, Miss Lily Wright, Miss Anne Martin, Miss Lillian Williams, Miss Florence Atkinson, Miss Francis Hughes, Miss Marie Griffith; centers, Miss Nora Spaffor, Miss Dollie Spencer, Miss Lolla Boynton; substitutes, Miss Irene Furlong, Miss Alice Joy and Miss Irma Weill.

AT IDORA PARK THIS AFTERNOON

OAKLAND AND TACOMA WILL CROSS BATS ON THE NEW HOME GROUNDS.

STANDING OF THE CLUBS.

	Play.	Won	Lost	Pct
Tacoma	21	14	7	.667
Oakland	22	14	8	.636
Los Angeles	22	13	9	.591
Seattle	21	10	11	.476
San Francisco	22	10	12	.455
Portland	22	4	18	.182

This afternoon at Idora Park Oakland will cross bats with Tacoma. Oakland is but a little behind Tacoma on the team average, having played twenty-two games, winning fourteen and losing eight making the standing .636 per cent. Tacoma has played twenty-one, won fourteen and lost seven and heads the list with .667 per cent.

Oakland is just now in hard luck as far as her pitchers are concerned. Buchanan is the only one in any kind of shape. Graham has a lame wrist, which he sprained sliding bases early in the week and he can hardly throw a ball to the plate much less enter into a game. Schmidt has a bad shoulder and Whittredge seems unable to become acclimated.

"Doc" Moskiman is still off, and "What is Pete going to do?" is the question among the fans.

Tacoma has a strong lot of men in the box. Keafe, Overall, St. Vrain and Thomas are all recognized as good pitchers and Fisher is rejoicing that all are in condition.

The game will be called at 3:30. Jack McCarty goes north to today to umpire for the Pacific National League and possibly Jim McDonald will officiate as umpire.

The San Francisco Seals and The Angels will play ball at Los Angeles and Seattle and Portland will play at Portland.

CHOOSE 'VARSITY CREW.

CONSIDERABLE ACTIVITY IS DISPLAYED IN STATE UNIVERSITY BOATING CIRCLES.

BERKELEY, April 19.—At a meeting of the University Boating Association held yesterday, the following five men were practically chosen to constitute the 'varsity crew for 1904: E. Grindley, G. J. Anloff, E. A. Bannister, A. S. Bunnel and J. B. White. A. S. Bunnel was elected captain of the crew.

At the executive committee meeting last night Ed Grindley and S. S. Hawley were appointed a committee to take charge of boating affairs. The committee also authorized the B. A. U. C. to include Stanford in the meet with Washington, provided that the Stanford executive committee would regard the crew as representing the University.

Coach Kindt has been officially selected to coach the freshman crew. The most likely candidates at present among the '07 men are Reeves, Jones, Schreiber, Cerf, Marshall, Jay and Salsbury. It was decided by the executive committee to allow the freshman crew to wear the class numerals if they won the contest with Stanford.

NEW BASEBALL CLUB FORMED.

A new baseball team called the A. L. Lebers has been organized in Oakland. The nine played its first game Sunday at the Clinton levee with the Twenty-third Avenue Stars and defeated them by a score of 9 to 7 in a close game. H. Evers and C. Kimball did the best stick work for the Lebers.

A. L. Leber and Manager Muller were present to witness the game.

The A. L. Lebers are looking for a game and are open for any engagements from amateur teams for the coming season. All communications should be addressed to H. Wemmer, 827 Market street, Oakland.

The line-up of the Lebers is as follows: W. Adams, pitcher; W. McMullen, catcher; C. Kimball, first base; F. Baumgarten, second base; Lee Wade, shortstop; H. Evers, third base; E. Wade, leftfield; H. Wemmer, centerfield; J. Bankhead, rightfield.

Nevertheless, Mr. Bryan will probably keep right on in his course, his perversity in this respect being much like the singular preference of deaf men for using the railroad tracks as footpaths.—Providence Journal.

SOCIAL HALF HOUR.

Last Sunday evening after the preaching service in the First M. E. Church, the congregation was invited to the vestry where the music of an orchestral trio enlivened the sociability. A large number of strangers were made acquainted and a delightful half hour spent in conversation and music. It was voted a splendid success.

The new social and benevolent possibilities in this church seem to demand a new society although several societies are now busy at work. Yesterday a Ladies' Guild for the younger ladies was formed, the complete organization of which is to be effected at the home of Mrs. George F. Newton, 1167 Alice street on Friday afternoon, May 16.

DOUBLE CARD AT RELIANCE.

TURNER-CORDELL AND SMITH-BROWN MEET FOR FIFTEEN ROUNDS

An exceptionally attractive card is offered by the Reliance Athletic Club for April 27. The date was originally set for the 28th but in order not to conflict with other exhibitions that were scheduled to take place on this date Matchmaker Mahoney, after conferring with the principals, was enabled to make the desired change.

Rufe Turner and Jack Cordell will again be seen in the ring, the event being a scheduled fifteen-round contest. The last time the two met one of the hottest local fights of the season was witnessed by a large crowd. Rufe had the better of the first two rounds but from then on to the eleventh it was all Cordell who landed when and where he pleased. In the eleventh Rufe landed and knocked out Cordell. The crowd was surprised and all sorts of excuses were offered by admirers of both the pugs. The fight was however a hot one and as there is no love between the boys the coming contest will be even more fiercely fought than was the last.

Rube Smith who put up such a good preliminary in the Turner-Cordell fight will meet George Brown. Both these boys are scrappers from the gong. They are also down for a fifteen-round go making a double card and one of much merit. Mahoney may also furnish a preliminary.

The Smith Brown go looked so good to Matchmaker Mahoney that he offered a purse of $250. Rube wanted a side bet also and Brown accommodated him to the extent of $250.

Diabetes in Melbourne

THE SIERRA, JUST ARRIVED, REPORTS SEVEN MORE CASES RECOVERING UNDER THE FULTON COMPOUNDS, AND BRINGS AN ORDER FOR ANOTHER SHIPMENT BY RETURN STEAMER.

Months ago we made a shipment of the Fulton Compounds to the Union Manufacturing and Agency Co. of 359 Collins street, Melbourne, Australia. They wrote that it was a trial order and that if they were, as we claimed, actual cures for Diabetes and Bright's Disease, they would want more of them.

The steamer Sierra, that arrived last Friday, brought a letter from the same company, dated March 21, 1904, from which we condense the following:

"Send twelve dozen of the Diabetes Compound by the return of the vessel. We have seven cases of Diabetes using the Compound, and most if not all the cases seem to be progressing satisfactorily. Please do not lose a day in getting this supply shipped. You can, of course, understand the importance of making the treatment continuous."

We shipped a lot of the compounds for both Bright's Disease and Diabetes to the J. B. Ryals Drug Co. of Cordele, Ga., some months ago. We have just before us a letter from the company dated April 9, in which they say:

"We have now living testimonials here and are building up a good trade on your compounds."

The whole world is waking up to the fact that Bright's Disease and Diabetes are now curable by the Fulton Compounds. Send for literature and list of agents to Jno. J. Fulton Co., 409 Washington street, San Francisco, sole compounders. Sold by Owl Drug Co., 13th and Broadway; Osgood Bros., 7th and Broadway; I. Tobriner, 7th and Market streets.

ATHLETICS PAYING BUSINESS.

NEAT PROFITS MADE IN INTER-COLLEGIATE FIELD DAYS AND BASEBALL GAMES.

BERKELEY, April 19.—That the baseball games and track meets between California and Stanford are profitable affairs was brought out in a substantial manner at the meeting of the executive committee of the Associated Students when it was reported that the first contest netted $641, the second $411.50 and the track meet $2086. To send the track men, band and Glee Club to Stanford $150 was expended, and $117.50 was paid to Stanford, $18 to the A. W. S. and $10 for printing A. S. U. C. membership list.

Big track C's were voted to the following men: Snedigar, Kern, Wilcox, Edwards, Mishler, Mondy, Adler, Thomas, Howard, Frel, Hume, Sperry, Sacharias, Gilmore and Neil Baker received a tennis C.

The proposition of giving a banquet was discussed at length, the matter finally being turned over to Decoto, Christy and Cooley for settlement. The objection to the banquet was that the men would be breaking training rules while preparing for the meet with Washington. The matter of presenting pins to the women's tennis champions of the University was discussed and finally laid over to the next meeting.

POWER HOUSE STRUCK BY ELECTRICAL STORM.

Building at Elmhurst is Nearly Demolished—Narrow Escape of Superintendent.

ELMHURST, April 19.—During the electric storm which raged here today, the sub-station of the Standard Electric Company was almost entirely demolished.

The electricity from the storm was conducted into the station through the sub-wire, carrying 4000 volts of electricity.

The electrical transformers, watt meters and ammeters were completely ruined.

Large pieces of iron were thrown a distance of several feet.

The building was one mass of blaze and the volts of electricity burned holes through the floor.

W. H. Pollard who has charge of the station was just going out of the door when the explosion took place.

It knocked him several feet, but he did not sustain any injuries.

If he had not left the building at that opportune moment he would undoubtedly have been killed.

Superintendent P. M. Downing of San Francisco is on his way to the scene of the accident.

The station supplies all suburban electricity from Fruitvale to Haywards. It will probably be several days before the damage will be rectified.

STRIKERS ARE IN CONTROL.

Bloodshed is Feared Among the Miners at Garrett.

SOMERSET, Pa., April 19.—The striking coal miners at Garrett have taken possession of the town.

Armed men are said to be patrolling the streets and a mob armed with rifles and shotguns is reported to have surrounded the works of the Garrett Coal Company.

An outbreak is momentarily anticipated between the strikers and the miners in the company barricade. The miners are nearly all Italians and are said to be armed and prepared to resist any attack.

Sheriff Coleman organized a posse of twenty-five and started for the scene.

At least 200 shots were exchanged between the mob and men at the mines last night, but so far no fatalities have been reported. During the night the dwelling of Jerry Meyers, a miner who has been out of employment for several months but who formerly worked for the Garrett Coal Company, was burned. Mrs. Meyers, her two daughters, one son and two small children perished in the flames. Meyers and a boarder named Sullivan dashed through the flames to safety.

Reports of the origin of the fire are conflicting, but all agree that it was the work of incendiaries.

The Meyers house occupied a site on a bluff in full view of the town and the hundreds of people who rushed to the scene were helpless to rescue the women and children.

Garrett is a mining town and has a population of about 1000. President Frank B. Black of the Garrett Coal Company is here consulting with the sheriff.

Coroner Lowther reached Garrett this afternoon and wired the sheriff that the situation was extremely critical. The sheriff's posse should reach Garrett about 6 o'clock.

HARRIMAN MAY BUILD TO YUMA

HE WANTS TO HEAD OFF OPPOSITION IN THE FAR SOUTH.

IMPERIAL, Cal., April 19.—E. H. Harriman and Julius Kruttschnitt are expected to arrive at Imperial tonight to inspect railroad construction in progress here. They are believed to have plans for the immediate construction of the line to Yuma and possibly to the head of the Gulf of California, with the view to heading off the construction of the San Diego Eastern, which is supposed to have passed into the control of Gould interests.

STATEHOOD BILL DISCUSSED.

REPUBLICANS DO NOT FAVOR THE PASSAGE OF THE BILL.

WASHINGTON, April 19.—Soon after the House met today, Mr. Dalzell of Pennsylvania presented a rule for the immediate consideration of the Statehood bill.

Following a brief explanation of the bill by Mr. Dalzell, Mr. Williams of Mississippi, the minority leader, charged that the bill was but a pretext to stay the demand of the Territories for admission.

He expressed the opinion that the Republicans had no idea of passing the bill at this session, or, in fact, any idea that it would pass at all.

The bill, he said, simply was "apples to the eye and ashes to the taste," and offered in such form that it was known beforehand it could not receive the approbation and votes of the minority.

EXAMINATION OF R. B. PAGE.

AGED SPOUSE BEGINS HIS GRILL UPON THE WITNESS STAND.

"Then Mr. Page the only point upon which you and your wife agree is, that the rooster flew from a block onto the fence and crowed at you?"

"Yes sir."

This was Attorney Chapman's opening question in the cross examination of R. B. Page who is the defendant in a divorce suit brought against him by Jennie Page. She alleged that he had been cruel to her and one of the forms this cruelty took, according to her testimony, was that Page whipped a rooster to death.

The question brought a smile to the face of the court and the select few in the court room. It is one of the ludicrous things that serves to lighten a case that is stretching out into the vague region of personal sensitiveness.

There are other allegations, hard, dry, matter of fact ones, some of them, such as lack of food, locking the wife out of the house at night and making her climb through the window to get in and then threaten to shoot her. There are others which can only be hinted at, in which the coarse grain of man, comes into contact with the finer feelings of woman. But Page denies them all in toto leaving as he acknowledged, the one thing upon hich the testimony agreed, the fact that there was a rooster and that it crowed at him.

Page is whitened and looks his age of sixty, and odd. He said that he was fifty when he secured his marriage license, ten years ago, and on the stand said that at that time he was nearer sixty. He may be seventy now. Mrs. Page is thirty-one. For ten years winter and spring have rubbed along together, but there is no bond to hold them together, except Page's carefully hoarded wealth from which he is loth to part.

Attorney Frick in the direct examination of his witness counting up Page's total holdings could only make them reach the aggregate of about $16,000. It is his all and a buffet between him and a cold world. He says that he is unable to work. He itemizes everything from the sending of a box of apples to his mother-in-law, when pippins are ripe, in the Fall of 1902, to the $4 he paid for picking cherries a half a dozen years ago. His wife's expenses are all there. He had receipted bills to contradict her testimony that he paid $27 for having a seal skin sack renovated when she thought it was about half that sum.

The wife on the other hand believes that she is entitled to a part of that money because she has given up ten of the best years of her life in a vain effort to make youth and old age congenial. She testified that he spent $4 a year for clothes and that he had said that she ought to get along on as little. The testimony, however, is contradictory from begining to end and ends the incident of the rooster begins and ends their agreement.

Page denies everything, even that he whipped the rooster, but says that it did get to be such a nuisance that he finally killed him and ate him. Mrs. Page says that she was given so little money that she was forced to paint pillows and do fancy work which she sold in San Francisco in order to get clothes enough to wear. He says that he never refused her a cent.

Among the attorneys, however, there is an abiding harmony. Attorneys McElroy and Kinsel originally had the case and each enforced himself. McElroy got Chapman to help him out in his case for Mrs. Page and Kinsel got Frick. Between Frick and Chapman there is the best of good feeling and "nary" a clash has marked the trial of a case now going on into its second week.

RUSSIANS ARE ALL AT SEA.

ST. PETERSBURG, April 19.—The chances of the Japanese effecting a landing on neutral territory on the coast of Liao Tung peninsula are now regarded as remote as the Russians don't believe the Japanese would risk arousing the Chinese and thus bringing down upon them the condemnation of the Powers, whose good opinion they are striving to obtain. The fact is that the Russians seem greatly at sea as to the Japanese plans.

ONLY A RUSE.

In the best-informed military quarters the correspondent of the Associated Press finds considerable skepticism in regard to the reported Japanese landing in Liao Tung Gulf and inclination to think it has been too widely advertised to prove more than a ruse.

If heavy landing occurs now except in Korea, the Russian authorities are more disposed to believe that it would be near Taku Shan. Japanese troops are expected daily at the mouth of the Yalu river.

Reports that there are five thousand Cossacks in the neighborhood of Gensan are denied. The Russian cavalry is scouting along the east of Korea, but not so far down as Gensan.

SKIRMISHING.

While there has been a most constant skirmishing along the Yalu, the Russians do not anticipate land fighting for some time, not believing that the Japanese will seriously attempt crossing the river until their advance can be supported by two corps, which, their advices indicate, about represent the strength of the Mikado's soldiers in Korea. The general staff is of the opinion that the Japanese rear must be protected and that a third corps must be landed and entrenched in a line across the peninsula before the real forward movement can begin. Lack of transportation facilities, according to the Russian advices are delaying the Japanese.

ROADS ARE BAD.

Both in Japan and Korea the roads are in a dreadful state.

The Japanese horses are dying by the hundreds.

It will be impossible to bring up regular field artillery and they will have to rely upon mounted guns.

General Kuropatkin's dispositions, the general staff says are progressing rapidly and satisfactorily.

The troops concentrating below Mukden are being sent to their allotted positions. About 30,000 are employed in guarding the railroad.

They are mainly on duty about the massive bridges, heavy cuts, etc., where serious damage could be done by explosions.

There is no necessity for a heavy guard along the ordinary roadbed where damage could be repaired in a few hours.

The Russians know the Japanese are making desperate efforts to cripple the road by blowing up bridges.

A number of Japanese officers have already been caught redhanded but the Russians believe that the measures taken will prevent the possibility of such a catastrophe.

BAXLEY BEFORE THE GRAND JURY.

The Grand Jury met this morning and continued its investigation in regard to the charges made by George Baxley, a former employe at the County Infirmary.

Baxley spent a full hour before the Grand Jury, but he could throw no further light on the alleged stories than what has already been published. He rehearsed the charge of the making of an electrical machine by an inmate of the institution, which was afterwards sold for $682 to the county. Baxley claims that the county paid for the materials in the first instance and that the whole contrivance was not worth $50.

Supervisor Jos. Kelley was called before the jury to be interrogated as to the expenditure for fitting up the various county offices in the Court House.

The Supervisors explained every charge made against them.

STATEHOOD BILL PASSES HOUSE.

WASHINGTON, April 19.—The House has passed the Statehood bill which provides that one State each shall be created of the Territories of Arizona and New Mexico and Oklahoma and Indian Territory. The vote was 147 to 104.

BOUND BY UNIT RULE.

(Continued From Page 1.)

"We declare our adherence to the fundamental principles which Democracy has taught from the foundation of our Government and which are essential to the preservation of our constitutional system.

"With Jefferson, we believe that the best government is that which governs least.

OBJECT TO TAXATION.

"We declare our opposition to all schemes of taxation that bear unequally upon individuals or interest or that tend to increase the profits of one class at the expense of another. We are for lightening taxation on the necessaries of life and increasing it, if need be, only upon the luxuries, always bearing in mind that the constitutional power to levy duties on imports exists only for the purpose of raising revenue.

"While we recognize the right of capital in all legitimate lines of enterprise to combine for the increase of business, we believe that by wise legislation, rigidly enforced against such combinations, their evil tendencies can be prevented without needless destruction to the capital upon which labor must depend for employment and compensation. We believe that a majority of the unlawful trusts now in existence are the direct and natural result of excessive Republican tariff duties, which destroy competition and inevitably breed combinations for monopoly. To remedy this evil should be one of the first purposes of tariff revision.

RESIST AGGRESSIONS.

"Our national strength should rather be exhibited in resisting the aggressions of great powers that in browbeating the weak American republics, whose guardianship and protection we have so long assumed and maintained. We favor the speedy completion of the Panama canal, but regret that our Government should have permitted this great project to be stained with evidence of dishonorable intrigue against the integrity of a friendly republic.

LABOR TROUBLES.

"We deplore the continued existence of labor troubles affecting important industries and vast numbers of people and express the earnest hope that through concession, arbitration, moderation and fair dealing early adjustments may be reached.

"Labor unions organized for the betterment of the condition of wage-earners, acting within the limits of law and not subversive of public order or individual rights, are not only lawful but commendable, and should be met, recognized and dealt with accordingly."

The platform instructs the delegates to the national convention to "vote as a unit in all matters entrusted to their charge."

The convention then proceeded to the nomination of a Justice of the Supreme Court and Justice Samuel Gustine Thompson was named by acclamation.

LETTERS IN THE HYDE CASE.

SAN FRANCISCO, April 19.—Hearing of the Hyde-Dimond land fraud case was resumed before Commissioner Heacock today, with Henry P. Dimond still on the stand. Attorney Charles S. Wheeler informed the Court that he had in his possession certain letters which Frederick A. Hyde had placed in the possession of Mr. Dimond. These were in addition to the letters written by Hyde that were offered as evidence yesterday. Under the circumstances, said Attorney Wheeler, he would not offer the additional letters in evidence without the consent of Mr. Hyde.

Objection being made, the commissioner ordered that the letters be held. A large number of the letters which had been admitted were then read. They showed the business relations of Hyde-Dimond and Benson, but few new facts were revealed.

After several unimportant questions the direct examination of Dimond came to an end. This afternoon the attorneys began their cross-examination.

ELECTION ENDS IN TRAGEDY.

NEW ORLEANS, April 19.—The quadrennial State election is in progress in Louisiana today. There are two tickets in the field—the Democratic, headed by Former Justice Blanchard and the Lily-White Republican, headed by General W. J. K. Behan, for governor.

The election resulted in a tragedy in Ascension Parish, where the Lily-Whites and Democrats are closely divided. Sam Moore, former sheriff, under the Democrats, who was leading the Lily-Whites, became involved in a dispute at the polls and was instantly killed by Deputy Sheriff Ed. Smith. Moore was attempting to post pictures of negro office holders under the Democratic administration.

CHINESE BITTER TOWARD RUSSIANS.

SHANGHAI, April 19.—General Ma Yu Kun, commanding the Chinese army on the Manchurian border, reports that the Russian troops are moving west of the Liao river. He said it is difficult to control his troops, as they are anxious to attack the Russians.

YALE PROFESSOR TESTIFIES.

WASHINGTON, April 19.—John Wurts, a professor in the law school of Yale University, gave testimony today against Judge Charles Swayne before the subcommittee of the House committee. Judge Swayne was present and will cross-examine Professor Wurts tomorrow.

According to Professor Wurts the Florida Central and Peninsula Railroad furnished Judge Swayne a private car for himself and party to go to the Pacific slope. This trip caused scandalous talk in Jacksonville and the witness said that on his return Judge Swayne told him that the only expense the trip had been to him was the provisioning of the car.

TESTIMONY IN THE BOTKIN CASE.

SAN FRANCISCO, April 19.—In the Botkin examination today the first witnesses were Joshua Deane and Mary Dunning. Their testimony did not differ from that given at the previous trials of Mrs. Botkin.

RECOVERED HIS DOG.

Jeremiah Dunn, an Alaskan miner, recovered a dog today by search warrant proceedings from the poundman, whom he accused of taking the dog from his yard on Fifty-eighth street. Dunn's wife, Mrs. Margaret Dunn, and his daughter, Miss Maggie Dunn, both testified that Deputy Poundman Smith entered the yard and took the dog from beneath a rose bush. Smith said that he took the dog from the street. Judge Samuels awarded the dog to Dunn.

Municipal Ownership in Los Angeles

The experience of Los Angeles with her municipal water plant is instructive. About three years ago the city voted $2,000,000 to pay for improvements and extensions made by the lessees of the plant, and last Friday another bond issue of $487,500 was voted to make urgently needed additions to the plant—$337,500 to increase the supply and $150,000 for a new reservoir. According to the statement of the superintendent, the present supply is inadequate and the reservoir capacity only equals two days' consumption. In presenting the necessity for a new storage reservoir, he says:

"At present the reservoir capacity of the city is less than two days' supply. Hence we are compelled to maintain a constant flow of equal, or nearly equal to the maximum demand. Naturally there is a variation between the summer and winter supply, and the demand is greater at the time when the supply is at the lowest ebb. The proposed reservoir will contain a thirty-days' supply, and by graduating its use, filling during the time at least demand is greatest at the time when of greatest demand, we can get along with a smaller development of water."

With a supply that barely keeps pace with consumption, and which has to be constantly enlarged at continual expense to meet growing demands, with the reserve supply limited to a thirty days' draft, it is apparent that Los Angeles has got a water plant that must be fortified by new investment at frequent intervals. Under municipal ownership the rates charged are too low to provide any fund for renewals and extensions. Consequently, the cost of renewals and extensions must be charged to capital account, which, of course, increases the interest charge as well as the investment.

Los Angeles was one of the first cities in California to acquire a municipal water plant. But operating the plant in the early days, when the city was small, proved unsatisfactory, and after a time it was leased to a private corporation for thirty years. During the life of this lease Los Angeles had its tremendous boom and its marvelous growth. In order to meet the extraordinary and rapidly increasing demands, the company was compelled to make many extensions and enlargements. It had to enormously increase the capacity and create a new distributing system.

At the expiration of the lease, the city attempted to take over the plant without paying for the improvements. There was a bitter political fight and protracted litigation—in which the city lost—finally ending in a compromise. The city paid $2,000,000 for the improvements and got its property back. That was three years ago, and since then two bond issues have been voted for further extensions. Those contemplated in the last bond issue, when completed, will give the city little reserve above present current needs and only thirty days' storage capacity. The people of Los Angeles get their water at low rates, but they have to use it sparingly and are compelled to keep going down in their pockets for more money to put in the plant.

The Proposed New School Buildings

As the day approaches for the school bond election, which is to be held Saturday, April 23d, the interest of the property owners, as well as the parents of school children, in the plans prepared by the Board of Education, require an explanation as to what it is proposed to do.

The members of the Board of Education for more than six months have devoted a great deal of time to the consideration of these matters, and for the first time in the history of Oakland have avowed a comprehensive plan of improvement of the schools, looking to the requirements of the future.

Heretofore school grounds have been bought and buildings erected as the need for such improvements demanded, the buildings erected at that time providing simply for the present accommodations.

Believing in the future of Oakland, the Board of Education has submitted a proposition which will remedy, as far as possible, the mistakes of the past by enlarging the sites that are at present inadequate for the needs of hundreds of school children who are at present either denied the privilege of attending public schools, or forced into ill-lighted, poorly ventilated and unsanitary rooms temporarily provided for in the basements.

The new buildings to be erected on the new sites, the purchase of which is contemplated by this bond issue, are to be so planned and constructed that additions may be added thereto at any time as the demand warrants it, without harming in the least the symmetry of the edifice.

These buildings will, of course, be constructed according to the most modern plans evolved by master minds in the construction of buildings for educational purposes.

While applauding Gunner Monson for his bravery and presence of mind, we should not lose sight of the necessity for ascertaining why it is that such deeds of heroism are necessary in our navy. Serious accidents have recently occurred on the Iowa, Boston and Missouri, and a disaster was narrowly averted lately on the Alabama. Why is it? For one thing, it appears that the regulations have been systematically violated. In order to make a record for quick firing it has been the practice to keep several charges of powder in the turrets during target practice. To this violation of the regulations the accident on the Missouri was directly due. Keeping a ton or so of high-grade explosive in the narrow compass of a turret while the guns are being fired is taking a fearful risk. It is needless to say that this risk is wholly unnecessary.

The Plaint of a Spoilsman

Senator Bailey of Texas, who frankly acknowledges that he believes in Marcy's apothegm, "to the victors belong the spoils," has been assailing the Civil Service law as a fraud and a humbug. He says 90 per cent of the government employes who get into the service pass their examinations by cheating or collusion and that the other 10 per cent are prigs and incompetents. The charge is sweeping, but it is not wholly unjustified by the facts. That the Civil Service examinations are made farcial by trickery and collusion is too true, but that is the fault of those who execute the law, not an infirmity of the law itself.

Now who is responsible for the manner in which the Civil Service law is maladministered? The spoilsmen of course—men like Senator Bailey who believe that the spoils of office are the legitimate loot of politics. Thus we see that neither the law nor the believers in the law can be blamed for the condition which the Texas Senator so soundly berates. He points to the evils of the spoils system as an evidence of the weakness and sham of the merit system. It is a good deal like the devil pointing to whisky as a proof that holy water is a baneful fluid.

Who cheat in the Civil Service examination? The spoilsmen. Who make the law a travesty? The spoilsmen. And why? In order that the maxim "to the victors belong the spoils" may be carried out. Does not this prove that the Civil Service law is good instead of proving that it is bad?

But with all the cheating and crookedness in administering the law, it is better than the system it superseded. The Civil Service is on a higher plane now than it ever was. It is far from perfect, but its imperfections are precisely in proportion to the extent that the spoils system has corrupted the law or evaded its provisions. The more closely the law is followed in spirit and letter, the nearer ideal the service becomes.

We are told there is no political significance in the fact that the three Democrats on the Supreme Bench decided that Congress has no power to regulate the trusts. Still it is a coincidence. It is another coincidence that George F. Baer, head of the coal trust, and James J. Hill, organizer of the Northern Securities Company, are both Democrats.

A Judicial View of Libel Laws

In a recent address before the Fresno Bar Association Superior Judge George E. Church, discussing laws against libel and slander, said that he believed that there should be no laws restricting the press, that though the privilege of the press is sometimes abused, it is a thousand times better so than that there should be any hindrance to free speech. He said that he did not know of a single case of a suit for libel in which anyone was benefited. While a great many will take issue with Judge Church, it is not to be denied that there is wisdom in what he says. Judge Church is a lawyer of age and experience, a jurist of acknowledged ability and a man of scholarly attainments. Being a man of quiet tastes and sedate temper, his reprobation of all libel laws is all the more noteworthy. One would expect him to take directly the opposite view, for Judge Church is no believer in license in speech and is by nature averse to acrimony and accusation. His objection to libel laws is that they do no good and do operate to prevent exposures that benefit society. The more fettered a press is the better protected are vice and crime and maladministration.

Judge Church might have added that a large proportion of libel suits are prosecuted in bad faith and are based on technical rather than real or intentional libel. They are made the vehicle of vindictive spite and the cupidity of unscrupulous lawyers. They protect thieves in office and grafters in business. It is true that a certain class of publications do assail reputation without cause, but the libel laws do not restrain such publications. It is only the responsible journal that is hampered, and the hampering is all in the wrong direction. The licentious portion of the press does not injure the business or reputations of those it attacks so much as it outrages feelings and offends decency; and the laws enacted to keep it under control utterly fail in their object.

The Jolly Miller.

(Or the Gentle Uses of Adversity.)

There was a Jolly Miller once
And curious grist ground he;
For every day his mill turned out
Some Ukase or decree;
And then he ground poor Hebrew's heads
Meanwhile he sang with glee;
"I cares for nobody, no, not I,
For nobody cares for me!"

He ground high taxes out of Finns,
Who once were proudly free;
He crushed the Man who dared to think
And scorned to bend the knee;
He ground Free speech beneath his heels
Meanwhile he sang with glee;
"I cares for nobody, no, not I
For nobody cares for me!"

He had the whip of leathern thong
To accentuate his glee,
He strung some bits of iron on,
In playful irony;
To knout the ass that brought the corn
Was fun for him you see.
"I cares for nobody, no, not I
For nobody cares for me."

A little, swart-faced yellow chap;
Eyes black, as black could be
Like Quixote, tilted at the mill
With gay audacity;
The mill fell down, the Miller fell
To prayer on unused knee.
"I care," he swore, "for the Universe;
Will nobody care for me?"

PORT COSTA FLOUR IS THE BEST AT ALL GROCERS

Hints for the Ladies.

The piquet is the name given to the spruce little bunch of flowers or small fruit which is somewhat stiffly tied up, to stand sentinel on the little spring walking hats. The piquet is usually placed to the left of front; but as there are left handed and right handed people, so there are women or girls to who hat trimmings are more becoming when poised at the right side than on the left. In such case the piquet of a lady's slippers, stocks or fox gloves may be mentioned to the right of the front, besides the crown. The piquet stands erect and is supposed to be something of an aigrette or pompon, made of flowers, instead of feathers.

Angel sleeves adorn many of the evening gowns, and very beautiful they are, because the soft drapery is in the silken tissues, liberty silk, chiffon or mousseline de soie, or some such clinging material. A charming toilet has a trained skirt of heliotrope satin, with three scant flounces, each supporting a flounce of valenciennes lace. A large jacket is worn with this white valenciennes, made up over a heliotrope satin lining. But the lace sleeves barely reach the elbow, and from them descends long angel drapery of violet-tinted liberty silk, the gauziest of fabrics. The drapery is caught up again and held in to the undersleeve at the wrist. A necklace of Swiss crystals, amethyst-colored, runs on a purple cord, is worn about the throat.

Gold is present also in embroideries in impressive quantity. Much embroidery is of the raised and filled sort and cloudlike materials now and then seem almost overweighted with such embellishment. Fringes are going to continue their winter vogue to judge by the quantities of them on the shop counters. The narrower sorts seem in the lead. For dressy get-ups ruchings are to be a much-favored means of ornamentation. Lace trimmings become of greater value when sheer fabrics and of filmy ones on firmer goods, but this notion need not worry those who at first thought do not approve it. Such may follow their own taste in lace and be stylish without trace of freakishness.

Do you know what is meant by the bloom of the grape? The fine, dusty or powdery surface which shows the clusters have not been brushed by careless finger touches—this is apparently the motive which the silk merchants have borne in mind in designing the output of new silken fabrics for use in the spring and summer of 1904. The once-shining surface of some new silks and satins appears to be delicately veiled or clouded. This does not affect the color tone, but only the sheen. Delicately lovely are these clouded silks. In fact the "clouding" makes available for street or carriage dress many faint tints which would be too "pronounced" if they were left in the first shining state. Shadowed coin spots appear effective on the shining surface of the willow-green and brownish foulard sold for summer gowns. Triangles and diamonds and geometrical patterns abound in the new materials. While not as poetic as the flower patterns, they are at least as beautiful.

CARRIER PIGEONS.

Country physicians in many instances have adopted the use of pigeons as messengers. A physician raises a loft of carriers, and when he visits a patient four or five miles away he carries with him a basket containing one of his birds. If dangerous symptoms arise in the night or the following day the pigeon is released with a message. Some physicians with long country routes carry half a dozen or more of these pigeons on their rounds and leave one at each place. A A daily report of of the different cases can thus be obtained by pigeon service. This service has also been extended on large western farms. Some farmers receive daily reports of the markets from the city in this way when there are no telephone or telegraph wires to send the messages. All that is required is a trip to the city once a fortnight to carry back the birds and some one in the city to write the reports and release the pigeons.

The best carrier pigeons are worth several hundred dollars in the market, and some cannot be purchased at any price. During the annual pigeon show in New York last year $200 and even $300 was refused by the owners for some of their choicest pets. The average exhibits were valued at $25 and $50. Prices, however, do not stand in the way of the pigeon fancier today, for excellent homing pigeons can be purchased for $5 and less. One can start a loft with half a dozen breeders, and within a few seasons have all the birds desired.

Wireless telegraphy has made the use of pigeons for war purposes superfluous, and the extensive pigeon lofts in the military and naval services of European nations probably will soon become useless.

"DEAR MRS. PINKHAM:—Gradual loss of strength and nerve force told me something was radically wrong with me. I had severe shooting pains through the pelvic organs, cramps and extreme irritation compelled me to seek medical advice. The doctor said that I had ovarian trouble and ulceration, and advised an operation. I strongly objected to this and decided to try Lydia E. Pinkham's Vegetable Compound. I soon found that my judgment was correct, and that all the good things said about this medicine were true, and day by day I felt less pain and increased appetite. The ulceration soon healed, and the other complications disappeared, and in eleven weeks I was once more strong and vigorous and perfectly well.

"My heartiest thanks are sent to you for the great good you have done me."—Sincerely yours, MISS MARGARET MERKLEY, 375 Third St., Milwaukee, Wis.—$5000 forfeit if original of above letter proving genuineness cannot be produced.

SAD DEATH OF A PHYSICIAN.

NEW YORK, April 19.—Dr. Lorenzo J. Kohnstamm, a traveler, philosopher and physician of more than local reputation, is dead here in a hospital for the insane. Four years ago he suddenly retired from a practice yielding thousands of dollars yearly. He was a member of the medical societies of Paris, Vienna, Brussels and Berlin and his strange action attracted considerable attention. Removing with his family to another part of the city, the doctor practically disappeared from the society of even his most intimate friends.

Two years later he called at Bellevue Hospital where he desired to become a patient. Then he explained his retirement.

In 1900, he said, he had noticed symptoms of paresis in himself. Without informing anyone he began a careful study of his own case, which having confirmed his own suspicions led him to relinquish his practice, with a hope that quiet living, exercise and freedom from all effort might at least retard the ailment. His heroic struggle was in vain and he desired to prepare for death, having settled all his affairs with that idea in view. The physician was transferred to Manhattan Hospital where he remained two years awaiting the end.

NEW ROAD NEARLY READY.

NEW YORK, April 19.—Trains of the Wabash Railroad Company will begin running into Pittsburg regularly on June 19 unless some unforeseen delay occurs, according to President Joseph Ramsey Jr., who has just returned from an inspection of the work. Time cards he said are now being prepared.

With the exception of the finishing touches to the bridge across the Monongahela river at Mingo Junction, the Pittsburg extension is now complete. About the middle of May it is expected the framework of the bridge will be complete and a month later will bear regular traffic.

COME AND SEE HOW PETTICOATS ARE MADE

—cut, sewed and trimmed in 6 minutes

The picture gives you a little idea of the modern miniature factory that will be in our store all this week. But it contains nothing to indicate the speed, life, economy of time, and the almost miraculous expert work which distinguishes the industrial world of today.

We repeat—COME AND SEE—you're welcome.

These remarkable machines, under the guiding hand of four experts, cut out the sections of black mercerized sateen, sew the body together, strapping the seams at the same time; without the loss of a second, two gathered ruffles are made, each trimmed with double rows of hemstitching; a full dust ruffle is made neatly and sewn on firmly, and six minutes after an order is given the finished, lustrous underskirt with fitted hips is ready for the customer.

It's an industrial exhibit you can't afford to miss.

The Skirts, Ordinarily Worth $1.48, are Sold as Fast as Made for 68c.

Beautiful Muslin Underwear

In the same aisle with the miniature petticoat factory will be found a most pleasing display of fresh snow-white Muslin Underwear — every stitch the work of American fingers.

When one tries to tell of their dainty beauty the tongue fails absolutely; it needs the eyes and you're heartily welcome.

GOWNS are priced 35c, 50c, 65c, 75c, 90c, $1.00 and up to $4.25.

MUSLIN DRAWERS range in price from 25c, 35c, 50c, 65c, 75c to $2.50.

PETTICOATS are priced 50c, 65c, 75c, 95c and up to $7.50.

CHEMISE, prices.....25c to $1.00

All kinds of desirable muslin underwear for misses and children will also be found in this department.

The Smart Shirt Waist Suits

You've doubtless noticed that it's in vogue already. The stylishness and economy of these suits are alone sufficient to commend them, without any mention of their comfort and grace.

Suit Specials $20.00

RAILROAD CHANGES PLANS IN SOUTH.

IMPERIAL, April 19.—It was reported today, though local railroad men refuse to confirm it, that orders have been given to discontinue the construction of the railroad from Imperial to Calexico until a survey can be completed through to Yuma. The track is laid to a point two miles north of Calexico, from which point it is claimed the road will lead eastward to Yuma, avoiding Calexico.

The change of plan is said to be due to the discovery that Gould interests have bought the El Paso Southwestern and the San Diego and Eastern Railroad, and it is said the Southern Pacific intends to rush through a road from Yuma to San Diego, by way of Imperial, in order to head off rivals.

One wonders how the leap-year girl enjoys acquiring relatives by refus-

A WOMAN'S BACK

The Aches and Pains Will Disappear If the Advice of this Oakland Citizen is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidney's fault

Backache is really kidney ache.

That's why Doan's Kidney Pills cure it.

Many Oakland women know this.

Read what one has to say about it.

Mrs. I. Stewart, Model Confectionery and Bakery, 837 San Pablo avenue, says: "If all troubled with pain in the back could have it ended as quickly and as thoroughly as Doan's Kidney Pills, procured at a drug store ended mine, then that far to prevalent annoyance would cease to have any terrors for ladies who will take a course of the treatment with this strengthening and curative remedy. When I read about Doan's Kidney Pills in our papers I was sadly in need of something for an attack of backache just like many of its predecessors. The treatment acted just as stated and relief followed in a surprisedly short space of time."

For sale by all dealers; price 50 cents per box. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

CURE CATARRH BY BREATHING.

Osgood Brothers Offer to Return Money If Hyomei Treatment Fails to Cure Catarrh Without Stomach Dosing.

If for a few minutes four times a day you breathe Hyomei, all catarrhal germs will be destroyed and the irritated mucous membrane restored to health.

With every Hyomei outfit there is a neat inhaler which can be carried in the purse or pocket. Hyomei breathed through this contains the same healing balsams that are found in the air upon the mountains, where catarrh is unknown.

It destroys all catarrhal germs in the air passages of the head, throat and nose, and makes a positive and permanent cure of catarrh.

Ask Osgood Brothers to show you a Hyomei outfit and explain to you what a simple and easy way it is to relieve and cure your catarrhal troubles.

DIDN'T LIKE IT

Soon Found Why.

Coffee has a terrible hold on some people.

"About 8 years ago I was a great sufferer from stomach trouble; my liver was all out of fix and a wise doctor forbid tea and coffee. At that time I was so weak I could hardly walk, absolutely poisoned.

"One day I noticed Postum in the store and having read about it I bought a package and made some. I did not like it but tried it again and followed directions carefully. It was no long before I liked it better than any other drink and it has brought me out of all the old coffee troubles, too.

"I can now eat what I want, am strong and healthy and the effects of Postum on me were so good for all our family soon drank it.

"In summer when the weather is hot I do not have that 'all gone,' feeling now for when I drink a cup of Postum it refreshes and strengthens but never has the bad after-effect like coffee.

"Postum is like everything else—it needs to be made right and there is no better way than the directions on the package." Name given by Postum Company, Battle Creek, Michigan.

There's a reason.

Look in each package for the famous little book, "The Road to Wellville."

PERSONAL AND SOCIAL.

LARGE AFFAIR AT THE EBELL THIS AFTERNOON.

The mythology section of the Ebell held a delightful reception this afternoon at the club rooms. The affair was the most unique of the year and was under the management of Mrs. Gilbert Curtiss, curator of the section.

This section is one of the youngest in the club, yet the members have accomplished a vast amount of work and the reception today proved that the social side had not been neglected.

The mystic flowers, the laurel, the lily and iris formed the quaint decoration this afternoon and the statues of far-faired gods and goddesses peeped out from their mystic coverings.

The musical program was a delightful feature of the entertainment and included the following numbers:

CHILDREN AT HOSPITAL.

Two children were taken to the Receiving Hospital today suffering from injuries received in peculiar ways. Maggie Schwartz, 7 years of age, fell out of a window at the home of her parents at 661 Linden street and cut her lip badly. The distance was not far and she escaped without further hurt with the exception of a bad shaking up.

Marie White, 6 years of age, had her fingers severely cut by a cycle which, it is said, was in the hands of a man who was under the influence of liquor. He was passing the house at Fifth and Franklin streets and the child, in some manner grasped the blade, which was drawn through her fingers, cutting them on the inner side.

BROWN LOSES HIS LICENSE.

AFTER HAVING WON A VICTORY IN THE COMMITTEE HE LOSES ON TECHNICALITY.

Saloon matters again engaged the attention of the City Council last night resulting in some spirited arguments between the members as well as developing a case where the minority vote of the members of the Council was of more avail than the vote of the majority.

When Manuel Brown's application came up for a final vote there were five members of the Council present who favored the granting of the license, while there were four members opposed to it. Councilman Howard and Councilman Cuvellier were absent. Under the rules of the Council, seven members constitute a quorum, but it takes six votes to carry any proposition affirmatively. Brown received five affirmative votes but could not get the sixth and, as a result, his application for a license was denied.

At the meeting of the License Committee of the Council last Thursday night it was recommended that he be granted a license after one of the bitterest contests ever witnessed in the Council chambers. Five of the Council were willing to abide by the recommendation of the committee but four members were enough to defeat Brown by a mere technicality.

Those voting for the license were Councilmen Aitken, Baccus, Fitzgerald, Meese and McAdams.

Those opposed to the license were Councilmen Dornin, Pendleton, Elliot and Wallace.

Councilman Elliot started the discussion by stating that he had come to the conclusion that the residents in the vicinity of the proposed saloon, 962 East Fourteenth street, were opposed to the granting of the license. Mr. Elliot continued by stating that as he was going to vote against the license that he would make a technical fight against any favorable action. With this purpose in view he asked that the petition for the application be referred to the City Attorney for his opinion as to the legality of the signatures.

Councilman Wallace then made an attack on the methods of the Council in general in handling the liquor cases that come before the Council.

"It is a shame the way certain women witnesses have been handled before the License Committee. I would not bring my wife here to testify if I thought that she would be subjected to the same treatment that other women have been. Women who come up here asked if they are opposed to the liquor business in general. If they answer yes their testimony is thrown out on the ground of bias. Yet a rum seller can come here with a financial interest at stake and admittedly a prejudiced person and he is allowed to testify uninterruptedly. I am opposed to this sort of thing."

Councilman Aitken then spoke in favor of the application. He said:

"I have been over in that district and find that the people living within three blocks favor the saloon three to one. They want the saloon there. I think that it is the duty of the Council to give them the saloon if they want it. Mr. Brown, the applicant, has been slandered. Those who have worked against him have done so by lying. They have only tried to take his business away from him, but they have tried to rob him of his character by unscrupulous tricks. You can watch a thief but when you are dealing with a liar you have nothing to guide you."

The motion made by Elliot to refer the matter to the City Attorney was then put and lost. The motion to grant the application was then put and lost in the manner explained above.

Councilman Fitzgerald was not satisfied that the four Councilmen voting in the negative had a right to destroy the votes of the other five and asked that he matter be referred to the City Attorney for an opinion.

STREET READY FOR CITY.

HARRISON STREET PROPERTY OWNERS GIVE DEEDS TO CITY ATTORNEY.

In a report to the City Council last night, Attorney McElroy stated that he had in his possession all of the necessary deeds for the opening of Harrison street from Twentieth to Bay Place and Twenty-fourth street. The City Attorney said that he had the deeds in escrow and that they would be delivered to the city by him when proper ordinances were drawn up. The owners of the property who dedicated to the city the various rights of way for the extension of the boulevard have made it a condition that the street shall be taken care of by the city at no expense to the present owners. The further condition is imposed of the city not having the right to grant a street railway franchise over the strip to be dedicated.

The report of the City Attorney on the matter is as follows:

To the Honorable, the Council of the City of Oakland: Gentlemen:—I herewith report that there has been placed in my hands certain deeds of real estate wherein the city of Oakland is grantee and the following named persons respectfully, are grantors, to wit: Etta W. Edwards, Sisters of the Sacred Names of Jesus and Mary, a corporation, Edson F. Adams, John C. Adams, Julia P. A. Prather, A. K. P. Harmon, Etta H. Edwards, John R. Glascock, Manuel R. Valdez, Anita D. Valdez, Oakland Paving Company, The Realty Syndicate.

The said deeds, when delivered to the city of Oakland, convey all the right, title and interest of said grantors in and to the land necessary to be taken in order to open and extend Harrison street from Twentieth street to Twenty-fourth and Bay Place in the City of Oakland.

I further report that in accordance with written instructions of said grantors, I hold said deeds in escrow and that I am to deliver the said deeds to the City of Oakland upon the passage of ordinances herewith enclosed, wherein and whereby the City of Oakland accepts and agrees to all the terms and conditions set forth in the respective deeds aforesaid mentioned.

In each of said deeds is set forth that the property described in deeds respectively, is granted upon the following conditions, to wit:

"On condition precedent and provided that this deed shall be void and nothing shall pass hereunder unless the said party of the second part, shall, within two years from date do all street work and otherwise improve and place in good condition, including sidewalks thereon, the westerly half of said Harrison street as so extended, between Twentieth street and the southerly line of Boulevard Terrace formerly called Grand avenue and Twenty-fourth street and Bay place within four years from date to do all street work and otherwise improve and place in good condition including sidewalks thereon, the easterly half of Harrison street as so extended between Twentieth street and the southerly line of Boulevard Terrace (formerly called Grand avenue) and when done, pass an ordinance fully accepting said street."

"The said deeds of the Realty Syndicate, John R. Glascock, Manuel R. Valdez, and Anita D. Valdez, and the Oakland Paving Company of date 22d day of March, 1904 and A. K. P. Harmon, Etta H. Edwards, in addition to the above condition, contain the following to wit:

"Provided further that the work hereinbefore specified, shall be done by the said city without cost or charge on the property of the grantors herein. Provided further that no franchise for a street car line be granted anyone on said street or boulevard referred to.

"The said deeds of John R. Glascock, Manuel R. Valdez, Anita D. Valdez, and the Oakland Paving Company and Sarah A. Cutting in addition to the conditions set forth firstly in this communication contain the following to wit:

"Provided, further that the work hereinbefore specified shall be done by said city without cost to or charge on the property of the grantors herein.

"Respectfully yours,
"J. E. McELROY,
"City Attorney."

TAKES LICENSE AWAY.

C. E. Rutledge, who conducts a saloon at 1442 San Pablo avenue had his license revoked last night by the unanimous vote of the City Council.

At the investigation held before the License Committee last Thursday night, behind closed doors, enough evidence was developed to convince the committee that Rutledge was anyone but a proper person to be allowed a license.

Testimony was given showing that a woman and a man had lost money in the place the intimation being that they had been plied with drugs by some one who had robbery in view. It was also shown that he had sold liquor to minors.

The council decided not to grant J. B. Torre at 1016 Seventh street a license. The application of Fred Ohe was laid over.

NEW YARDS FOR THE S. P.

The Southern Pacific Company, through Superintendent Palmer, last night at the City Council applied for a franchise to lay tracks from its main line at First and Cypress street to Fifth and Kirkham streets to the proposed freight yards. The franchise asked for will cover about 500 feet of ground.

For many years, particularly since the traffic on the Pacific Coast has become large, the Southern Pacific Company has been handicaped by the smallness of its freight yards. The yards at Fifth and Kirkham streets will give the space required.

As the Southern Pacific officials deemed that the early granting of the franchise was a matter of importance, the Council, under the suspension of the rules, fixed Monday, May 9, as the time for the hearing of the bids.

MAKES GIFT TO THE CITY.

At last night's meeting of the City Council Councilman Wallace introduced a resolution which will pave the way for the gift of a park to the city by F. M. Smith and other public-spirited citizens. The proposed gift to the city consists of a triangular tract of land lying between Fourth avenue and Fifth avenue, near Twentieth street. It is the intention of the donor to improve Fourth avenue. In order to carry out the plans he has in contemplation, it will be necessary for Mr. Smith to make expenditure of more than $30,000. To make Fourth avenue more imposing Mr. Smith will donate a strip twenty feet wide, which will be macadamized and presented to the city in first-class condition. The remodeling of the street will involve the removal of the iron fence surrounding Arbor Villa. The work of dedicating Fourth avenue to the city and the gift of the park to the city of Oakland will amount in money a sum closely approximating $40,000.

The following is the resolution introduced by Councilman Wallace:

"Whereas, F. M. Smith, in conjunction with other public-spirited citizens, propose to improve a triangular tract of land lying between Fourth avenue and Fifth avenue, from East Twentieth street and East Twenty-third street, and to present the same, free of all incumbrance, for a public park; therefore be it

"Resolved, That the City Council hereby agrees to accept the same and to properly care for the same perpetually."

The matter was referred to the Committee of the Whole.

ANOTHER STEP IN BOND SCHEME.

At the meeting of the City Council last night one more step was taken in the matter of the bond issue various ordinances dealing with the several projects were passed to print and will be in proper shape to present to the voters as soon as the period of publication expires.

The ordinances passed on last night were establishing the boundaries of various parks, determining site for Polytechnic School, establishing a children's playground and defining the boundaries of the Temescal creek boulevard.

The Council intends to push the matter as rapidly as they legally can and will call the election in all probability before June 15th.

A man's reputation for wisdom may be due to his frequent use of the words "That's so."

BERKELEY SUBURBAN NEWS UNIVERSITY

TO REVISE LAWS OF REGENTS.

EFFORT TO PREVENT REPETITION OF CASES LIKE THAT OF EMBEZZLER M'KOWEN.

BERKELEY, April 19.—The Board of Regents of the University has requested Professor M. W. Merrill, head of the Latin department, to revise the Regents' Manual and Volume of Fundamental Law of the University.

This work contains rules of conduct of University officials and for the trusts confided to them. The last issue of the laws was in 1895. It is important that the work be done immediately in order to prevent such irregularities as arose in the regime of ex-Secretary McKowen.

CO-EDS WILL HAVE AN "AT HOME."

BERKELEY, April 19.—The second at home given by the Associated Women Students this semester will be in charge of the women of the Junior and Freshman classes and will be held at Hearst Hall, April 21 from 4 to 6 p. m.

All women students are invited and the affair is to be entirely informal. A program will be rendered which will consist of individual stunts, music and dancing. During the afternoon light refreshments will be served.

As this is the last reception of the year special pains will be taken to have it outdo the one given earlier in the term in charge of the Seniors and Sophomores and to make it a complete success.

The following committee is in charge of the affair. Miss Ethel Richardson, '05, chairman; Misses Florence Parker, '05, Ethel Eggleston, '05, Effie Kroll, '05, Sibyl Jones, '05, Alice O'Connell, '05, Alice Berry, '07, Helen Knowlton, '07, Mary Gilmore, '07, Marjory Lynch, '07. The above named in conjunction with the following will compose the reception committee: Misses Nell McCarthy, '05, Flora Frickstad, '05, Lewerne Marshall, '07 and Laura Bonestell, '07.

LADIES GIVE TALKS ON MANUAL TRAINING.

BERKELEY, April 19.—The Ladies' Aid Society of the First Baptist Church of this city met this afternoon at 2:30 o'clock in the church parlors. Addresses were given by Mrs. Carlisle and Mrs. Darst on the subject of manual training. Many of the members of the congregation and their friends attended the meeting.

CO-EDS DECLARE HE FAILED TO GET CONSENT.

University Girls Will Not Appear in An Attraction for Which They are Billed.

BERKELEY, April 19.—There is a little misunderstanding between Emil Kruschke, author of "McGinnis or the Two Papas," the women who are working for the benefit of the St. Matthews organ fund and the members of the 1905 junior farce of the State University.

It seems that Kruschke had offered to produce the play for the benefit of St. Matthew's Church. Regarding the production of the play Kruschke had spoken to the members of last year's junior farce, but in such an indefinite manner that no member of the cast had any fixed idea what was to happen until yesterday afternoon when posters came out announcing that "The Two Papas" would be produced in Shattuck Hall on April 27th.

The members of the cast were shocked. The examination period was approaching and the students could ill spare the week necessary for rehearsing. In fact one of the cast when interviewed last evening said:

"It will be impossible for the members of the cast to join Mr. Kruschke in his dramatic venture. The examinations are too close. Besides Kruschke did not approach us as he should have. He came to me as if I was the last one to be asked and as if the entire show depended on me. Naturally, I was unwilling to be the cause of destroying the performance and I gave my consent to the proposition. After comparing notes with the rest of the cast I found that each one had been approached in the same manner. That is, Kruschke had given each one the impression that he was the last one to be asked. All the others having consented."

As the matter now stands, the cast of the junior farce will not act on the 27th and it is up to Kruschke either to get another company or make his peace with the ladies of St. Matthew's Church in some other way.

COLLEGE ORCHESTRA WILL PLAY TONIGHT.

BERKELEY, April 19.—The second semi-annual concert of the University Orchestra will take place this evening at 8 o'clock in Harmon gymnasium. As an additional feature the orchestra has secured the services of two exceptionally good soloists, Miss Ethyl Barrows, vocalist, and F. Gutterson, cellist. This is to be Mr. Gutterson's first public appearance since his return from Europe, where he was favorably mentioned by the critics. The program follows:

Overture, "Mons. Choufleurl" (Offenbach); quartet from "Rigoletto" (Verdi), (a) "Cantilene" (Golterman), (b) Scherzo, Op. 12, No. 2 (Van Goens), F. S. Gutterson; "Pizzicato Polka" (Strauss). Intermission. "Funeral March" (Chopin); "Widmung" (Robert Franz), Miss B. Ethyl Barrows, "Serenade" (Titl), flute solo by J. B. White; "Pilgrim's Chorus" from "I Lombardi" (Verdi).

PROPOSED ROAD FOR ALASKA.

VICTORIA, B. C. April 19.—John Cain, of Port Angeles, Wash., addressed a crowded meeting here last night on the proposed scheme to build a railroad from the south to the north end of Vancouver Island, connecting with the Port Angeles line by ferry across the Straits of Fuca and with Alaska at the north end by swife ferry steamers. He guaranteed to start the building within sixty days after the subsidy is settled and complete it within two years. The projected line would cost $9,000,000. The subsidy asked for 5000 acres per mile and $10,000 per mile three per cent inscribed stock of the province, redeemable in forty years. The meeting endorsed the project and decided to appeal to the provincial government to take immediate action. The scheme is designed to capture the Alaska trade from the Puget Sound cities and San Francisco.

STUDENTS FETED AT KIRMESS.

RAIN DRIVES PRYTANEANS FROM CO-ED CANYON TO HARMON GYMNASIUM.

BERKELEY, April 19.—Rained on, muddy, but by the end of the evening stuffed chinward with a happy medley of peanuts, creamed chicken, tomales, ice cream and corn-crisps, a good crowd of students enjoyed the Russian "Kirmess" of the Prytanean Society last night at Harmon Gymnasium. The booths of all nations, tastefully festooned with the national colors, were the pretty retreats of prettier maidens dressed in the picturesque costumes of the countries they represented, and who enticed the throng without to buy of the good things within and thus satisfy their thirst or hunger, please the young ladies, and in the end aid in endowing a student's bed in a hospital, for which the fete was given. The booths and fortune tellers did a rushing business and the ones who braved the storm seemed more financially backed than usual.

Though it was a great disappointment not to be able to have the annual affair in Co-ed Canyon as customary, on account of the weather, the evening passed off pleasantly to all who attended to add to its already goodly sum for the University hospital fund.

For the first time a regular program was carried out by the young ladies and the devoted girls were much appreciated when they danced in neatly costumed dances or played on the Eukulele, each number of which was heartily encored. The Scotch and Irish reels, in costume, by Meda Thornton, Montague Barton, Frances Dougherty and James Thebethick, children from Mrs. Syble Campbell-Reid's class of San Francisco, were especially good. The Dutch dance by Sue Ross, '06, and Edith Nichols, '05, was humorously well executed in the characteristic wooden shoes of the Hollanders. The Spanish, the United States serpentine flag dance and the English village dance were prettily done by young lady students. The Hawaiian Club of San Francisco and University orchestra rendered pleasing selections.

After the program dancing was indulged in until a late hour.

IN FAVOR OF IMPORTERS.

NEW YORK, April 19.—A decision has been announced by the United States Circuit Court of Appeals in the French cordial cases argued a few weeks ago. The court's ruling is in favor of the importers and if not carried to the Supreme Court of the United States the board of general appraisers will be able to decide 1400 suspended protests and the Government will have to refund about $250,000 in duties.

The issue involved in the cases is whether the clause of the reciprocity agreement with France admitting "spirits" at a duty of $1.75 a gallon instead of $2.25 applies to liquors and cordials. The Government has contended that as these articles were provided for in the tariff law in a separate paragraph from spirits they should not be included in the general term in the agreement with France.

MAN HUNT FAILS TO BRING TANGIBLE CLEW.

Mrs. Elizabeth Warren's Assailant is Still at Large—Wounded Woman May Die.

BERKELEY, April 19.—The manhunt that was instituted immediately after the hold-up in Warren's saloon on the county road north of Berkeley, during which Mrs. Elizabeth Warren was shot and seriously wounded, has given the officers no important clew, so carefully did the highwayman cover his tracks. Sheriff Bishop and Deputy Scanlan have been on the trail and peace officers throughout the county have been asked to keep a sharp lookout for the bandit.

Mrs. Warren's condition is worse today and it is feared that nothing can save her if pneumonia sets in.

As the Warren saloon is less than a mile from the North Berkeley station of the Southern Pacific Company, it was an easy matter for the highwayman to get out of town. Trains run out of town in such rapid succession that he must have got away long before the news of the crime reached town.

An incident that occurred at the Warren saloon Saturday night goes to show that it was a premeditated crime. Two men called there after Warren and his wife had retired late at night and deliberately shot the watch dog. When Warren protested against this brutality the men swore that they had had to protect themselves. It is evident that the men got the dog out of the way so that they would not be molested or betrayed before their Sunday work began. True, only one highwayman engaged in the hold-up, but it is believed that he was backed up by a companion who watched the saloon from the outside. At any rate, this is the view held by Warren and the officers.

SOULE GRILLS STUDENTS.

PROFESSOR DECLARES THE "MINING BOYS" CANNOT RUN THE UNIVERSITY.

BERKELEY, April 19.—It is now becoming no unusual thing for the professors at the State University to give free expression to their personal opinions in the class room. Yesterday the mining students came in for a rebuke from Professor Frank Soule, the head of the department of civil engineering.

"The mining push," he said with just a tinge of sarcasm in his voice, "seem to think that they run the college. All the term they have made disturbances in the laboratory and interfered with the recitations. It has got to stop. The 'mining push' is not running the University and the sooner they realize it the better."

IMPROVE TRAIN SERVICE.

BERKELEY, April 19.—Several newly modelled passenger coaches have been placed on the local run of the Southern Pacific Company. The cars have been newly painted and are richly upholstered in plush.

COMBINE STUDY AND FUN.

In accordance with the plans twenty-five small tents will be purchased to accommodate three persons each; three larger tents for instruments, office, etc., and one large fly tent to serve as dining hall. All of these are for the use of the class. A number of other articles useful in camp equipage will also be purchased, and the camp promises to be well supplied with everything necessary for excellent surveying practice.

The ideal location selected will attract a large attendance which promises very well for the success of the summer work.

SCHOOL CENSUS TAKEN.

CENSUS MARSHAL STORER BEGINS HIS WORK AT ELMHURST.

ELMHURST, April 19.—School Census Marshal Frank Storer began canvassing the Elmhurst School district Saturday of last week. It is believed that his report will reveal a material increase in the number of census children residing in the district. The number reported last year was 327 between the ages of 5 and 17 years. At the same time there were enumerated 124 children under 5 years of age, making a total of 451 pupils for the district.

The labors of the school census marshal are greatly increased this year owing to the fact that in addition to collecting the usual statistics it will be necessary to obtain the signature of a parent or guardian of every child reported on the census roll. This requirement is made a part of the census marshal by order of the State Superintendent of Public Instruction. The name and age of each child and the name of the school last attended.

A POPULAR LAMENT.

Where Would Society Be If One Was Judged for the Sins of Others?

"O; I tried one of those hair tonics some time ago and it never did me a bit of good."

That's what many people are saying today when they refuse Herpicide a trial.

It would be as sensible to say, "I never travel on a railroad because I often see collisions mentioned in the papers."

Newbro's Herpicide is specially made to destroy the germ that is living on the roots of your hair.

That is why it is so exceedingly efficacious—it is there for the sole purpose of ridding the hair of this parasitic growth, after which the hair grows as nature intended.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co. Detroit, Mich. Bowman & Co., special agents.

TELLS OF ANCIENT PEOPLE.

DR. GEORGE STEINDORFF TELLS OF THE BELIEFS OF THE EGYPTIANS.

BERKELEY, April 19. — Dr. George Steindorff in his second lecture, given last night at Hearst Hall, dealt with a special phase of the religion of the ancient Egyptians, his subject being "Views Concerning Life After Death." A large and appreciative audience was present in spite of the bad weather.

The speaker drew from the tangled medley of superstitions, witchcraft, and magic some few general notions held by this ancient people and showed that they had a firm belief in existence after death. They could not reconcile the annihilation of man at the instant death with their otherwise wise notions of mortal life. It was their sacred duty to do all in their power to provide for the welfare of the departed souls. Sacrifices were made for the dead for they were believed to need food and drink and servants; and every person having any religious feelings would repeat a prayer on passing the resting place of the dead.

"The Egyptians would not have been Orientals if they had not been filled with superstition. But in spite of their superstitions they did not sacrifice present life for the existence after death. There were some few Pessimists and there were Stoics and Epicureans but most of them were Optimists. Their naive, intense joy of life never left them; of all things, to them life was the best."

The Egyptians insisted that to be permitted to go to the abode of the blest a virtuous life was necessary. The dead souls, according to the "Pyramid Texts," of 3000 B. C., were to pass a number of judges and declare themselves innocent of mortal sin. If he escaped he was lead into the presence of Osirus to live with him eternally. Orisus had at one time been vanquished by his enemies, but was resuscitated by his son, Horus. So the myth prevailed that man could come to life again, like Osirus, and become one with Osirus if he could repeat certain formulas. On the way to the Elysian fields the souls had to cross many lakes and rivers and the ferrymen could be prevailed upon only by the repetition of certain magical formulas.

Dr. Steindorff will give his last lecture tomorrow evening in Hearst hall at 8 o'clock. The public is invited.

IMPORTANT
NOTICE TO VOTERS
REGISTRATION
Office of the County Clerk, Alameda County, Cal.

NOTICE IS HEREBY given that in accordance with the provisions of Chapter 53 Statutes of 1899, all voters of Alameda County must apply for re-registration in order to be able to vote at the General Election in November, as every name on Great Register was cancelled January 1st, 1904.

Owing to the fact that there is no provision of law providing assistance for the Clerk to register voters, IT IS IMPORTANT THAT VOTERS SHOULD APPLY FOR REGISTRATION AT ONCE IN ORDER TO EXPEDITE THE WORK.

Such re-registration began on the 1st day of January and will be in progress at all times until forty days preceding the next election in November.

In order to facilitate the work of re-registration, attention is called to the provisions of Section 1097 which reads as follows:

Sec. 1097. No person's name must be entered by the Clerk unless:

1. Upon the production and filing of a certified copy of the judgment of the Superior Court directing such entry to be made.

2. If a naturalized citizen, upon the production of his certificate of naturalization, which certificate must be issued ninety days prior to the succeeding election, or upon his affidavit that it is lost and out of his possession, which affidavit must state the place of his nativity and the time and place of his naturalization, together with his affidavit that he has resided in the United States for five years, and in this State for one year next preceding the time of application, and that he would be an elector of the county at the next succeeding election, provided, however, if such naturalized citizen shall have been previously registered as a qualified elector in any of the counties, or cities and counties of this State, his name must not be entered by the Clerk unless he produces a certificate of such registration, issued by the party authorized by law to issue such certificate, which certificate shall be prima facie evidence of his naturalization.

3. If born in a foreign country, upon his affidavit that he became a citizen of the United States by virtue of the naturalization of his father while he was residing in the United States, and under the age of twenty-one years, and that he is or would be an elector of the county at the next ensuing election.

4. In other cases, upon the affidavit of the party that he is or will be an elector of the county at the next succeeding election.

Further notice is hereby given that Affidavits of Registration must be sworn to before the County Clerk or his deputies, and that they can not, owing to the provisions of the new Registration Law, be sworn to before any other officer.

The office of the County Clerk will be, until further notice, open for registration from nine a. m. until five p. m. each day.

County Clerk, Alameda County.

THERE WILL BE NO FAILURE IN SCHOOL BOND ISSUE.

First Big Boost Will Be for the Public Schools—What the Improvements Mean.

A mass meeting of the citizens in the vicinity of the Durant School will be held this evening to endorse the school bond project. Councilman Elliot, City Superintendent of Schools McClymonds, School Director Lowell J. Hardy and others interested in furthering the proposition will deliver short addresses.

Thus far in the campaign there has been no opposition to the bonds themselves. Each section of the city will share equally in the benefits to be derived and all sections seem to be equally in favor of bonding the city. Superintendent McClymonds and the directors of the Board of Education are very confident that the results at the polls on Saturday next will justify the predictions that are now being made.

"Oakland," said Superintendent McClymonds this morning, "has a unique distinction among the cities of California. Her purse has always been open to the needs of the public schools. There has never been a time in the history of the city that when the necessity for school improvements arose that the people of this city did not respond generously. I fully believe that on Saturday next the solid portion of the community will turn out and sustain the reputation of Oakland in the past. It will be one of the best advertisements that could possibly be given the city.

"Already our city has peculiar educational advantages which are recognized all over the Pacific Coast. Oakland is a recognized educational center. If the people vote for the bonds on Saturday next, as we anticipate they will, it will add much lustre to the already good reputation of the city. New and modern school buildings are a form of advertisement which will not only pay from a commercial standpoint but will pay in what is still better, in intellectuality and good citizenship.

"At this time when everyone is booming the town and its fame is being spread broadcast by the public-spirited merchants, improvement clubs and others, it is peculiarly appropriate and fitting that the people should be given an opportunity to voice their sentiments relative to improving the city in the matter of its schools. Good schools mean a steady increase in population. It means that the very best of citizens will be secured to the community. Persons who are drawn to this city on account of the educational advantages are apt to be of a superior class, both in the matter of brains and even from a financial standpoint, because it takes a certain amount of money to be able to educate a child away from its home town, and parents that are willing to spend extra money on their children are certain to be possessed of superior qualities.

"Aside from the natural duty imposed to educate the young of the community, the commercial end of the school bonding proposition is one which should recommend itself to the business community."

Tomorrow evening one of the largest meetings of the campaign will be held in the Common School Assembly Hall. Capable speakers will present the bond proposition. Mayor Olney, Councilman Elliot and other speakers will be there.

CARPENTERS PASS RESOLUTIONS.

DISTRICT COUNCIL DENIES KNOWLEDGE OF MILL OWNERS' TROUBLE.

A regular meeting of the District Council of Carpenters was held last night in California Hall. The Council emphatically denied having communicated with the Millowners' Association in reference to discharging the four expelled carpenters that are now working in three union mills of Oakland. Business Agent Wm. Remmer, of the Carpenters' Union, reported that F. E. Dreisbach had discharged the two non-union men in his employ.

Owing to the primary election falling on Saturday, April 24, the Council issued a permit allowing the carpenters to work in the morning of the day. According to the constitution, carpenters are not allowed to work on the morning of that day. As they observe the Saturday half-holiday rule, they would not have been allowed to work at all on that day without special permission on the part of the District Council.

The committee on Labor Day reported that it had engaged music for all day. The committee is made up of A. West, chairman; E. Thompson and G. Weckwith.

The matter of Alameda county's exhibit at the St. Louis world's Fair was considered as to the fair and unfair contractors to whom the work has been let. In conjunction with the matter the following resolution was passed:

"Therefore, Resolved that a mistake was made in giving the work to W. H. Wellbye, a man who has always been unfair and endeavored to lower and reduce mechanics' wages to the lowest possible margin.

"Resolved further that the Merchants' Exchange of Oakland should have given the work to Oakland contractors, who have always paid living wages to mechanics, thereby sustaining their purchasing power, with whom the merchant comes in direct contact.

"Resolved further that it is the opinion of the Council that the bonus of 10 cents extra per hour the contractor has to pay to have his work done at St. Louis, is because of unfair material sent there from Oakland by parties directly interested and supposed to represent the people of Oakland.

"Resolved further that we protest as citizens and taxpayers, fifteen hundred strong, of the carpenters' trade alone without the affiliated unions that will co-operate with the carpenters if requested, that no more expenditure be made from the public funds unless it be to a fair contractor who has paid fair wages, that mechanics may live and educate their children as becomes an American citizen."

BARBERS MEET.

An assessment of 60 cents a month per member was levied by the union for the locked-out butchers of Oakland.

J. R. Walker addressed the union on the tobacco union label.

TROUBLE SETTLED.

Monday morning a settlement was reached in reference to the lock-out at the Oakland Box Factory through the efforts of President C. W. Petry of the Central Labor Council and M. Lesser, president of the Provision Trades' Council. An agreement was entered into with the company and the union whereby work should be resumed at once with a majority of the mechanics receiving the $2.50 a day. This wage was the cause of the trouble.

The remainder of the employes will receive the increase asked for within five months. Previous to the shut down wages were $2.25 a day.

SHOT AT TO KILL SALOONMAN.

M. POZZI REFUSED TO GIVE DRINKS AND BARELY MISSES BULLET.

Because he refused W. Wymar and three other persons drink last night, M. Pozzi, proprietor of a saloon at the corner of Fourteenth and Kirkham streets was made the target for a bullet. He was not struck but the glass behind the bar was shattered.

The four men entered the place about 10:30 last night and proceeded to take charge of affairs. Pozzi's suspicions were aroused by the actions of the strangers and he did a mental problem in which he figured himself the loser from a financial standpoint if he served any drinks.

When the spokesman of the four ordered the drinks in a hurry, mine host blandly informed him that he would not serve them. By persuasion in the form of a club, Pozzi was able to get rid of his customers.

Just as the last man was going through the door he turned suddenly and fired a bullet almost point blank at Pozzi. The bullet crashed into the bar fixtures.

The proprietor of the saloon is of the opinion that Wymar was the one who fired the shot.

ENJOY ANNUAL OUTING.

BRUSHY PEAK BOHEMIAN CLUB HOLDS PICNIC AND ELECTS OFFICERS.

LIVERMORE, April 19.—The usual annual outing of the Brushy Peak Bohemian Club took place Saturday with a full membership in attendance. Arrangements for the event had been in progress for several days. A. W. Feidler's big tally ho stage was fittingly decorated for the occasion and, attached to four gaily harnessed steeds driven by Dave McDonald, paraded the streets in the early morning and picked up the several members as they arrived on the early train from Oakland.

Other vehicles were also pressed into service, and, loaded with the choicest viands, the pilgrimage started at 9 o'clock for the usual meeting place on the Eastern slope of Brushy Peak. Two strangers from Oakland accompanied the pilgrims and, amid the almost inaccessible rocks and caverns of the meeting place, pledged eternal fidelity to the club and its aims and objects. The weird ceremonies of initiation over with, an elaborate repast was spread and partaken of by the assemblage after which memorial services for deceased members were conducted. The meeting concluded with election of officers for the ensuing year. The following were elected: President, John Aylward; vice-president, D. C. McNally; secretary, Dr. Baldwin; treasurer, T. E. Knox.

The following members were present: C. L. Crellin, C. E. Beck, W. H. Wright, Tony Clark, Dave McDonald, A. W. Fiedler, Charles Loose, Norman McLeod, Fred Mathiesen, John Aylward, Dr. Baldwin, T. E. Knox, D. C. McNally, and Fred Sangmaster.

The day was an ideal one for an outing and the party returned to town at 8 p. m.

OPENING OF OPERA HOUSE.

The opening of the new Sweeney & Son Opera House is being looked forward to as the coming event of the year. Company F Dramatic Club is holding nightly rehearsals of "Santiago" and a large number of seats have been engaged for the opening night.

As the seats have not yet arrived no date can be definitely settled upon but it is expected that the painters will be through with the building and the seats in position by May 13th and 14th, as it is the intention to run the play for two nights.

DISCUSSING POLITICS.

Politics are beginning to be discussed on the street corners these days. The Democrats are casting around for delegates to the Santa Cruz Convention. Several names have been mentioned, but it is not yet definitely settled whether more than the allotted number will aspire to the honors and precipitate a contest at the spring election. A preliminary meeting has been called to meet in the Town Hall on May 26th, for the purpose of nominating delegates. It is understood that an uninstructed delegation will be sent to Santa Cruz from Murray Township. The Republicans are not as yet discussing the situation as to who shall represent them at Sacramento as it is understood that the California delegation to Chicago will be solid for Roosevelt, consequently the local leaders of the party are taking very little interest in the State Convention.

THE NOVELTY.

At every performance at this theater there are large audiences. The program warrants the patronage that Col. Lubelski is enjoying, for the bill is invariably of the highest order. The usual weekly change of artists last night was given to a crowded house at both performances.

The Buttons, a team possessing more than ordinary ability, presented a comical sketch entitled "A Musical Husband." It was well received and admirably presented.

"Caesar," the famous magician, goes through "The Trunk Mystery" in a way that mystifies the auditors.

Stanfield, who impersonates well-known personages, does his work well, while the Lewis Sisters do some clever dancing and good singing.

The Japanese troupe of jugglers do some wonderful feats and with the new motion pictures and Walter Kerrick's rendition of one of the latest illustrated songs, the bill is most acceptable.

There are matinees every day in the week, which are very popular with the ladies and children. At these performances the little ones are admitted for five cents.

The same excellent program will be given all of this week. There are always extra shows on Saturdays and Sundays.

THE BELL.

A little inclemency in the weather does not keep away the large concourse of people who are ever eager to attend the Bell Theater, which is giving such excellent vaudeville shows. The new bill last night was up to the usual standard. From the time the curtain was rung up until the final act terminated, the large audience expressed its approbation by hearty applause.

The Bell seems to have won the public patronage and this favorite theater is becoming more popular every day. The matinees that are given every day are always largely attended by the ladies and children. Special acts are presented for their entertainment.

The moving pictures this week are splendid. Don't miss the Bell Theater this week.

LOTTERY OF LOVE AT LIBERTY.

JAMES NEILL AND COMPANY PRESENT BRILLIANT COMEDY.

James Neill presented "The Lottery of Love" last evening at Ye Liberty Playhouse before a good audience. This brilliant comedy as adapted by Augustin Daly is extremely funny without being offensive. Originally French, it probably had a broader theme more in accord with the traditional French atmosphere, but in the hands of the great American dramatist, it has lost the French flavor and is typically and traditionally American.

James Neill and company are very much at home in this play.

It went perfectly for a first night. All the members of the company were at their best. Mr. Neill, as the much persecuted young musician, was very funny and expressed his emotions in typical fashion. His mingled surprise, indignation, protest and resignation when the hated and fearful mother-in-law turns up a second time, was truly a picture, and his determination to flee from the scene was carried out fearlessly.

Miss Chapman as the simple minded "Diana" got back again to swell frocks and blonde wigs and was always good. She proved a willing agent of the tyrannical, but business-like Mrs. Sherramy. Miss Frances Slosson as "Jo" was ample proof of the Neill assertion that the three good ladies of the company were all clever. Miss Wallace had her chance as "Midge" in "The Cowboy and the Lady" and Miss Gilman proved her worth last week as "Rowy." Miss Slosson was indeed the "prize in the lottery." It fell to Miss Andrews to lead in the fun. As the "Mother-in-law" she was immense and kept everybody in a roar. Miss Andrews is a thorough artist and does everything well, but she was at her best last evening.

As the second victim of the mother-in-law juggernaught John W. Burton was splendid. The picture of his happiness as he springs his new wife on his daughter and his consternation as he learns some past history was very funny. It falls to the lot of the ladies of the Neill company to be the leaders in this play and they consequently monopolize the center of the stage, but still Donald Bowles, Sheldon Lewis, Scott Seaton and the others made the most of their parts. Miss Gilman was very good as "Ana Eliza." "The Lottery of Love" will run all week with a bargain matinee on Saturday.

Thursday evening will be University Night. The U. C. Musical Clubs will join in the program, giving glee songs, mandolin selections and some specialties before the play and between the acts. The proceeds of the evening will help to defray the expenses of the club's proposed trip to New Orleans.

NEW FIRE LIMITS FOR CITY.

COUNCILMAN MEESE INTRODUCES ORDINANCE EXTENDING ZONE EASTERLY.

Councilman Meese last night at the meeting of the City Council introduced an ordinance re-establishing the fire limits of the city. There was no debate on the ordinance. It was referred to the Ordinance and Judiciary Committee, where it will be discussed. The material change proposed by Meese's measure is that the zone where frame buildings may not be erected is extended 150 feet easterly of Franklin street, between Seventeenth street and Seventh.

The limits of the proposed ordinance are as follows:

Beginning at the center of Franklin street at its intersection with Seventh street, westerly to Washington street; thence to Eighth street, westerly to Clay, north to Fourteenth street; thence to Seventeenth, easterly to Telegraph avenue, and then 150 feet to the east of Broadway, south 100 feet to Fifteenth street, east 150 feet of Franklin; thence to Seventh street.

REVENUE DEFICIT DEMANDS TAXES.

LONDON, April 19.—Mr. Chamberlain estimated the expenditure of 1904-05 at $714,400,000 and the revenue on the basis of the existing taxation at $695,300,000, leaving a deficiency of $19,100,000 to be made up. He proposed, therefore, to increase the income tax by 2 cents. He also proposed an additional tax of 4 cents per pound on tea. The Chancellor further proposed a re-adjustment of the tobacco tax, imposing a duty of 81 cents on tobacco striped before imported; also an additional duty of 12 cents on cigars and an additional 75 cents on foreign cigarettes.
